**CONTENTS**

|   |     |
|---|-----|
| <b>Ovidiu Savin.</b> A localization theorem and boundary regularity for a class of degenerate Monge–Ampere equations .....  | 327 |
| <b>Makoto Nakamura.</b> Remarks on a weighted energy estimate and its application to nonlinear wave equations in one space dimension .....                                    | 389 |
| <b>Ruan Zhuoping, Witt Ingo, and Yin Huicheng.</b> The existence and singularity structures of low regularity solutions to higher order degenerate hyperbolic equations ..... | 407 |
| <b>Giulio Tralli.</b> A certain critical density property for invariant Harnack inequalities in H-type groups .....   | 461 |
| <b>Magdalena Foryś, Piotr Oprocha, and Paweł Wilczyński.</b> Factor maps and invariant distributional chaos .....   | 475 |
| <b>Chuangchuang Liang, Jingyu Li, and Kajun Zhang.</b> On a hyperbolic equation arising in electrostatic MEMS .....   | 503 |
| <b>Martin Koslowsky and Abbas Moameni.</b> A variational principle associated with elliptic boundary value problems .....   | 531 |
| <b>Long Tian and Xiao-Ping Yang.</b> Measure estimates of nodal sets of bi-harmonic functions .....   | 558 |
| <b>Vincenzo Ferone and François Murat.</b> Nonlinear elliptic equations with natural growth in the gradient and source terms in Lorentz spaces .....                          | 577 |
| <b>Daozhi Han and Xiaoming Wang.</b> Initial–boundary layer associated with the nonlinear Darcy–Brinkman system .....   | 609 |
| <b>Marian Bocea and Mihai Mihăilescu.</b> Eigenvalue problems in Orlicz–Sobolev spaces for rapidly growing operators in divergence form .....                                 | 640 |

*Continued on inside back cover*

**Abstracted/Index in** Mathematical Reviews, Science Citation Index Thomson Scientific, Compumath Citation Index, Zentralblatt MATH, Current Contents: (PC & ES). Also covered in the abstract and citation database Scopus®. Full text available on ScienceDirect®.

For a full and complete Guide for Authors please visit <http://www.elsevier.com/locate/jdeq>

The *Journal of Differential Equations* has no page charges.

*Continued from outside back cover*

|  |     |
|--|-----|
| <b>Boris Muha and Sunčica Čanić.</b> Existence of a solution to a fluid–multi-layered-structure interaction problem .....  | 658 |
| <b>Youngwoo Koh, Sanghyuk Lee, and Ryo Takada.</b> Strichartz estimates for the Euler equations in the rotational framework .....  | 707 |
| <b>Nan Lu.</b> Small generalized breathers with exponentially small tails for Klein–Gordon equations .....   | 745 |
| <b>Jiang Xu and Shuichi Kawashima.</b> Diffusive relaxation limit of classical solutions to the damped compressible Euler equations .....  | 771 |
| <b>N. Lerner, Y. Morimoto, K. Pravda-Starov, and C.-J. Xu.</b> Gelfand–Shilov smoothing properties of the radially symmetric spatially homogeneous Boltzmann equation without angular cutoff .....         | 797 |
| <b>Shuangqian Liu and Huijiang Zhao.</b> Optimal large-time decay of the relativistic Landau–Maxwell system .....  | 832 |
| <b>Juan Dávila, Manuel del Pino, and Juncheng Wei.</b> Concentrating standing waves for the fractional nonlinear Schrödinger equation .....  | 858 |
| <i>Corrigendum</i>   |     |
| <b>Lorena Bociu and Daniel Toundykov.</b> Corrigendum to “Attractors for non-dissipative irrotational von Karman plates with boundary damping” [J. Differential Equations 253 (12) (2012) 3568–3609] ..... | 893 |
