

Volume 61, Issue 5

October 2025

WILEY

24 articles in this issue

Allosteric Regulators of the Thyroid-Stimulating Hormone Receptor: New Horizons in the Pharmacology of Thyroid Pathology

Reviews | 05 November 2025 | Pages: 1305 - 1325

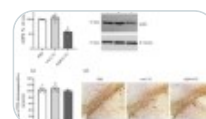

Glucagon-Like Peptide-1 Receptor Agonists Are Promising for the Treatment of Brain Diseases: an Outlook from the Perspective of Integrative Physiology

Reviews | Open access | 05 November 2025 | Pages: 1326 - 1348

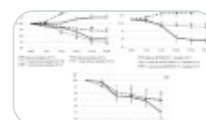

Aquaporin-4 Knockdown in the Substantia Nigra Exacerbates α -Synuclein Pathology, Neurodegeneration, and Motor Dysfunction in a Rat Model of Parkinson's Disease

Experimental Papers | 05 November 2025 | Pages: 1349 - 1362

Stimulation of Alpha-2 Adrenoreceptors against the Background of Hyperpolarization-Activated Current Blockade at Different Formation Stages of Cardiac Adrenergic Innervation

Experimental Papers | 05 November 2025 | Pages: 1363 - 1371

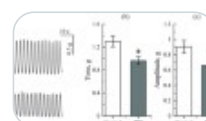

***Enterococcus faecium* L-3 Ameliorates the Severity of Experimental Allergic Encephalomyelitis in Rats by Influencing Gut Microbiota, Enterocytes, and Immune Functions**

Experimental Papers | 05 November 2025 | Pages: 1372 - 1403

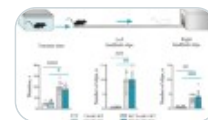

Effects of Hydrogen Sulfide and Nitric Oxide on Rat Jejunum Contractions in a Model of Irritable Bowel Syndrome

Experimental Papers | 05 November 2025 | Pages: 1404 - 1417

TAAR1 Modulates Neuronal and Glial Density in the Neocortex Following Spinal Cord Injury

Experimental Papers | 05 November 2025 | Pages: 1418 - 1432

Opportunities and Achievements in Using Nanoparticles in Medicine

Reviews | 05 November 2025 | Pages: 1433 - 1453

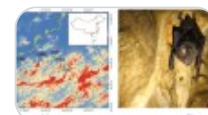

The Doxorubicin-Induced Myocardial Injury Model in Rodents: A Paradigm Shift?

Reviews | 05 November 2025 | Pages: 1454 - 1474

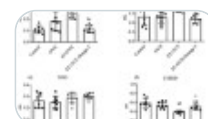

The Small-Scale Landscape Genetics of *Hipposideros armiger* in the Mountain Area of Southern Anhui Province, China

Experimental Papers | 05 November 2025 | Pages: 1475 - 1483

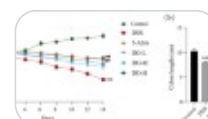

Protective Effect of Omega-3 Fatty Acid Supplementation against Immobilization Stress-Induced Cardiac Morphological and Functional Abnormalities in the Menopausal Rat Model

Experimental Papers | 05 November 2025 | Pages: 1484 - 1505

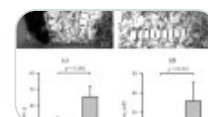

Effect of Dendrobium Officinale Extract on the PI3K/Akt Pathway in Mice with Ulcerative Colitis and Its Mechanism of Action

Experimental Papers | 05 November 2025 | Pages: 1506 - 1515

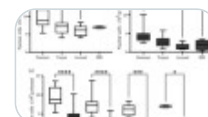

The Effects of Local Heating on Skin Microhemodynamics Regulation in Mice with a Genetic Model of Type 2 Diabetes Mellitus

Experimental Papers | 05 November 2025 | Pages: 1516 - 1531

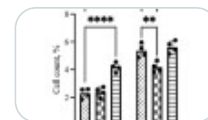

Features of Erythropoiesis in Long-Tailed Ground Squirrels *Urocitellus undulatus* at Arousal from Hibernation

Experimental Papers | 05 November 2025 | Pages: 1532 - 1543

Role of the Oxytocinergic System in Correcting Neurogenic Impairments Induced by Early Life Stress: an in vitro Study

Experimental Papers | 05 November 2025 | Pages: 1544 - 1553

Proarrhythmic Mechanomodulation of Cholinergic Effects in the Right Atrial Structures of Normotensive and Spontaneously Hypertensive Rats

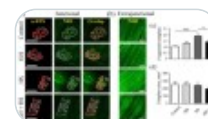

Experimental Papers | 05 November 2025 | Pages: 1554 - 1566

Does the Temporal P2 Wave in Event-Related Potentials Reflect the Process of Comparing Visual Information with a Working Memory Trace?

Experimental Papers | 05 November 2025 | Pages: 1567 - 1573

Short-Term Mild Hypoxia Maintains Endplate Integrity and Lipid Membrane Stability in Rat Skeletal Muscle under Simulated Gravitational Unloading

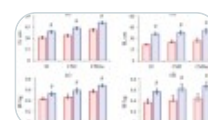

Experimental Papers | 05 November 2025 | Pages: 1574 - 1585

The Relationship between Upright Postural Stability, Foot Mobility, and Plantar Tactile Sensitivity in Female Gymnasts

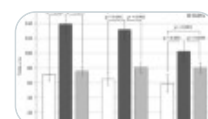

Experimental Papers | 05 November 2025 | Pages: 1586 - 1604

Gender Differences in Force–Velocity Capabilities of High-Class Speed Skaters and Cyclists, as well as Physically Active People in Single-Joint and Multi-Joint Movements

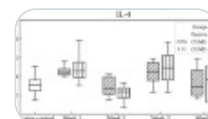

Experimental Papers | 05 November 2025 | Pages: 1605 - 1619

Effect of Empagliflozin on the Functional State of Skin Microcirculatory Vessels in Wistar Rats with Kidney Dysfunction

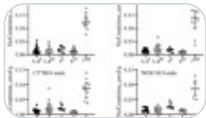

Experimental Papers | 05 November 2025 | Pages: 1620 - 1628

The Effect of Lipopolysaccharide on Blood Cytokine Levels in Rats Exposed to Chronic Unpredictable Mild Stress of Different Durations

Experimental Papers | 05 November 2025 | Pages: 1629 - 1638

Fasting Hypoglycemia and Preserved Renal Function in Endothelial NO Synthase Knockout Mice

Experimental Papers | 05 November 2025 | Pages: 1639 - 1648

Erratum to: Notch Signaling as a Way to Control the Endothelial-To-Mesenchymal Transition

Erratum | 05 November 2025 | Pages: 1649 - 1649
