

19 articles in this issue

Involvement of TNF- α , NF- κ B, and Fas Signaling Pathways in the Pathogenesis of Certain Diseases of the Nervous System

E. D. Bazhanova & A. A. Kozlov

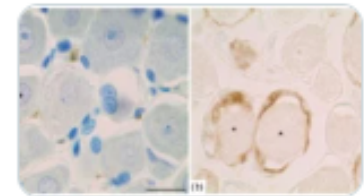

Reviews | 26 February 2026 | Pages: 1 – 18

Responses of Macrophages and Satellite Glial Cells in Rat Dorsal Root Ganglia to Parenteral Administration of Bacterial Lipopolysaccharide

E. A. Kolos & D. E. Korzhevskii

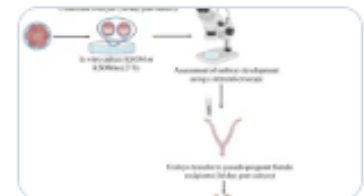

Experimental Papers | 26 February 2026 | Pages: 19 – 28

Effects of Medium Enrichment with Amino Acids on the Results of in vitro Embryo Culture and Embryo Transfer in Mice

E. Yu. Brusentsev, I. N. Rozhkova ... S. Ya. Amstislavsky

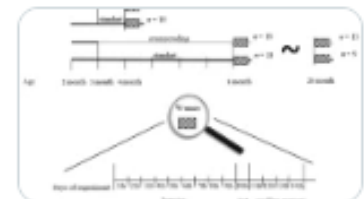

Experimental Papers | 26 February 2026 | Pages: 29 – 37

The Effect of Different Crowding Duration and Age on Spatial Learning in Rats in the Morris Water Maze

M. I. Zaichenko, A. A. Potekhina & E. V. Loseva

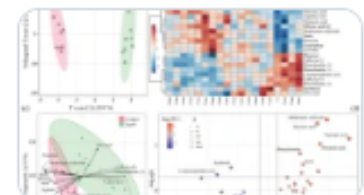

Experimental Papers | 26 February 2026 | Pages: 38 – 46

Untargeted Serum Metabolomics of Patients with Immunoglobulin A Nephropathy Using Gas Chromatography-Mass Spectrometry

M. D. Shachneva, E. D. Kessenikh ... V. A. Dobronravov

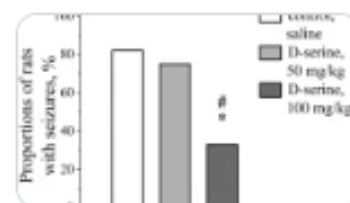

Experimental Papers | 26 February 2026 | Pages: 47 – 57

Effect of D-Serine on the Predisposition to Audiogenic Epilepsy and Behavior in PM Rats with Stereotyped Hyperkinesis

O. I. Prokudina, R. V. Kozhemyakina & D. A. Chudinov

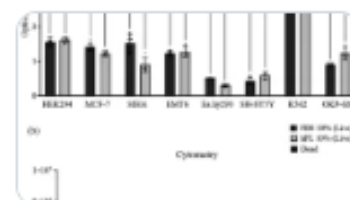

Experimental Papers | 26 February 2026 | Pages: 58 – 69

Effect of Platelet Lysate on Mammalian Cell Proliferation

I. S. Kolesnikova, V. E. Belchikov ... A. N. Sveshnikova

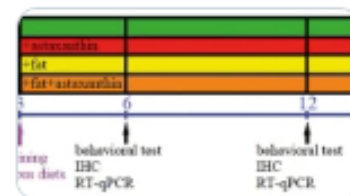

Experimental Papers | 26 February 2026 | Pages: 70 – 78

Effect of Astaxanthin on Hippocampal Neuroinflammation in Aging Mice Fed a High-Fat Diet

E. V. Fedorova, D. A. Fedorov ... V. I. Arkhipov

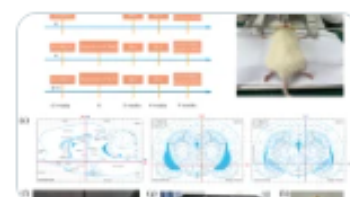

Experimental Papers | 26 February 2026 | Pages: 79 – 88

Therapeutic Effects of Recombinant Lentivirus Overexpressing TH, DDC, and GCH1 Genes in the 6-hydroxydopamine Induced Parkinson's Disease Rat

Junyan Chang, Xiaolong Huang ... Chunjing Wang

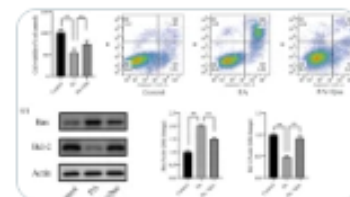

Experimental Papers | 26 February 2026 | Pages: 89 – 104

Quercetin Attenuates Palmitate-Induced MIN6 Cell Injury via Activation of PINK1/Parkin-Mediated Mitophagy

H. Zhang & Z. Guo

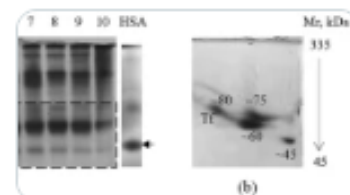

Experimental Papers | 26 February 2026 | Pages: 105 – 113

Identification and Characterization of Blood Serum Proteins with High Osmotic Activity in the Pike *Esox lucius*

A. M. Andreeva, Z. M. Bazarova ... A. S. Vasiliev

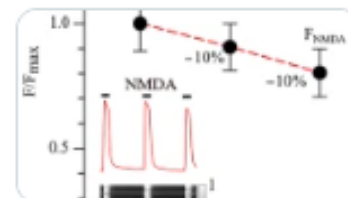

Experimental Papers | 26 February 2026 | Pages: 114 – 123

A Comparative Study of the Neuroprotective Properties of Cardiotonic Steroids in a Model of NMDA Receptor Hyperactivation in Cortical Neurons

S. I. Boikov, T. V. Karelina & D. A. Sibarov

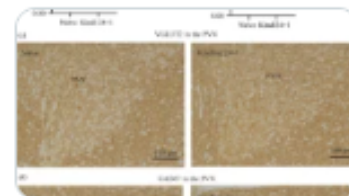

Experimental Papers | 26 February 2026 | Pages: 124 – 131

Effect of Audiogenic Kindling on the Central Component of Hypothalamic–Pituitary–Adrenal Axis in Krushinsky–Molodkina Rats

E. L. Harbachova, E. V. Chernigovskaya ... L. S. Nikitina

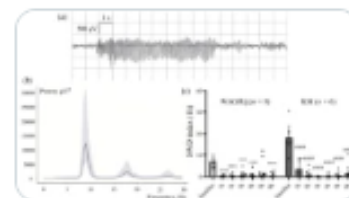

Experimental Papers | 26 February 2026 | Pages: 132 – 146

Spike-Wave Discharges in Two WAG/Rij Subpopulations and Krushinsky–Molodkina Rat Strain

S. M. Kuzhuget, E. T. Tsyba ... K. R. Abbasova

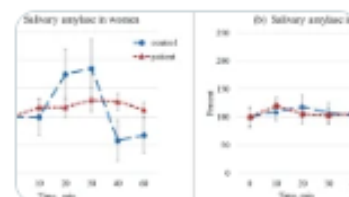

Experimental Papers | 26 February 2026 | Pages: 147 – 155

Assessment of Salivary Cortisol and Amylase as Stress Response Biomarkers in Patients with Major Depressive Disorder: the Role of Sex Differences

K. I. Pochigaeva, T. A. Druzhkova ... N. V. Gulyaeva

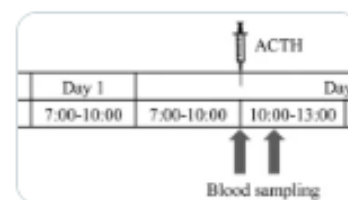

Experimental Papers | 26 February 2026 | Pages: 156 – 165

Measurement of Corticosterone Metabolites in Droppings of Small Passerine Birds: a Noninvasive Method for Assessing HPA Axis Activity

A. L. Tsvey, J. A. Loshchagina & S. V. Naidenko

Methodological Papers | 26 February 2026 | Pages: 166 – 181

Biochemical and Physiological Changes during Human Adaptation in the Circumpolar Zone: a Meta-Analysis

N. V. Kuzmenko, V. A. Tsyrlin ... M. M. Galagudza

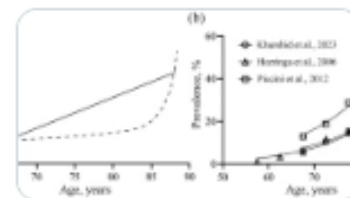

Reviews | 26 February 2026 | Pages: 182 – 208

Myocardial Aging: Cellular Mechanisms and Therapeutic Perspectives

T. S. Filatova, I. H. Dzhumaniiazova ... D. V. Abramochkin

Reviews | 26 February 2026 | Pages: 209 – 236

Erratum to: Effect of Dendrobium Officinale Extract on the PI3K/Akt Pathway in Mice with Ulcerative Colitis and Its Mechanism of Action

Mingwen Jia, Zifu Hong ... Muwen Qu

Erratum | 26 February 2026 | Pages: 237 – 237
