JOURNAL OF FLUORINE CHEMISTRY

Special issue:

A Special Issue in Honour of Dr Teruo Umemoto, Recipient of the 2014 ACS Award for Creative Work in Fluorine Chemistry

Edited by: William R. Dolbier, Jr.

Guest Editor: David O'Hagan

J. Fluorine Chem.

Contents

Graphical Abstracts	vii
Editorial	
D. O'Hagan	1
Exploration of fluorination reagents starting from FITS reagents	
T. Umemoto	3
Successful fluorine-containing herbicide agrochemicals	
T. Fujiwara and D. O'Hagan	16
Recent progress in transition-metal-catalyzed trifluoromethylation of olefins using electrophilic CF ₃ reagents	
T. Koike and M. Akita	30
Recent advances in the trifluoromethylation methodology and new CF ₃ -containing drugs	
W. Zhu, J. Wang, S. Wang, Z. Gu, J.L. Aceña, K. Izawa, H. Liu and V.A. Soloshonok	37
Copper-catalyzed intermolecular cyanotrifluoromethylation of alkenes: Convenient synthesis of CF ₃ -containing alkyl nitriles	
Z. Liang, F. Wang, P. Chen and G. Liu	55
Stereospecific synthesis of (<i>E</i>)- and (<i>Z</i>)-1-chloro-1,2-difluorostyrenes	
C. Lim and D.J. Burton	61
(Re)Investigation of the reactivity of uranium hexafluoride toward several organic functions at room temperature	
O. Roy, B. Marquet, J.-P. Alric, A. Jourdan, B. Morel, B.R. Langlois and T. Billard	74
Synthesis of α -CF ₃ ketones from alkenes and electrophilic trifluoromethylating reagents by visible-light driven photoredox catalysis	
L. Li, Q.-Y. Chen and Y. Guo	79
New approach to α -pentafluorosulfanyl-substituted carboxylic acid derivatives via Ireland-Claisen rearrangements	
A.-L. Dreier, A.V. Matsnev, J.S. Thrasher and G. Haufe	84
Pyrido[3,2- <i>b</i>][1,4]oxazine and pyrido[2,3- <i>b</i>][1,4]benzoxazine systems from tetrafluoropyridine derivatives	
G. Sandford, R. Slater, D.S. Yufit, J.A.K. Howard and A. Vong	91
Preparation of 1,1-difluoroalkanes from aldehydes via 1,1-bistriflates: Advantageous use of HF–Lewis base reagents	
W.R. Dolbier Jr. and M. Okamoto	96
Synthesis of fluoromethyl ethers and fluoromethyl esters by the reaction of the corresponding methylthiomethyl ethers and methylthiomethyl esters with IF ₅ –pyridine–HF	
M. Kunigami and S. Hara	101
Alcoholysis of fluoroform	
F.M. Miloserdov and V.V. Grushin	105
Highly regioselective S _N 2' reaction of β -fluoroallylic phosphates with organocopper reagents and its application to the synthesis of fluorine-containing carbocycles	
T. Nihei, Y. Kubo, T. Ishihara and T. Konno	110
Encapsulation of fluoroaromatics by β -cyclodextrin and their derivatives theoretical studies	
A. Szwajca and H. Koroniak	122
Preparation and characterization of α -fluorinated- γ -aminophosphonates	
M. Kaźmierczak, M. Kubicki and H. Koroniak	128
Synthesis of ethyl 3,3,3-trifluoropropionate from 2-bromo-3,3,3-trifluoropropene	
M. Inoue, M. Shiosaki and H. Muramaru	135
Improved synthesis, structure, and reactivity of 1,4-bis(trimethylsilyl)octafluorobutane	
B. Chen and D.A. Vicić	139

A convenient synthesis of fluorinated vinyl ethers derived from di- <i>O</i> -isopropylidenehexofuranose and <i>O</i> -isopropylidenepentofuranose B. Marciniak, M. Bilska-Markowska, M. Grzeszczuk, M. Rapp and H. Koroniak	143
Synthesis and spectral properties of α,α -difluorinated β -iminophosphonates M. Rapp, M.Z. Szewczyk and H. Koroniak	152
One step synthesis of 1,3-dihydro-1-alkyl(aryl)-3-(hexafluoro- <i>iso</i> -propyl)-2 <i>H</i> -imidazole-2-thiones V.A. Petrov, W. Marshall and R. Dooley	159
Synthesis of 2-aryl-1,1-difluoro-1,3-enynes via consecutive cross-coupling reactions of 2,2-difluoro-1-iodoethenyl <i>p</i> -toluenesulfonate J.H. Kim, Y.R. Jeong, S.L. Jeon and I.H. Jeong	166
Oxy-trifluoromethylation of alkenes and its application to the synthesis of β -trifluoromethylstyrene derivatives H. Egami, R. Shimizu, Y. Usui and M. Sodeoka	172
Gold catalyzed synthesis of fluorinated tetrahydrofurans and lactones D. Malhotra, L. Liu, W. Wang, M. Durham, G.B. Hammond and B. Xu	179
Pyrazoles with a "click" 4-[<i>N</i> -(4-fluorobutyl)-1,2,3-triazole] substituent in position 3 are nanomolar CB ₁ receptor ligands R. Distinto, C. Zanato, S. Montanari, M.G. Cascio, P. Lazzari, R. Pertwee and M. Zanda	184
Effects of substitution on the reactivity of alkyl aryl tetrafluoro- λ^6 -sulfanes L. Zhong, A.S. Filatov and J.T. Welch	192
Spectroscopic observation of charge transfer complex formation of persistent perfluoroalkyl radical with aromatics, olefin, and ether T. Ono and K. Ohta	198
Pentafluorosulfanylbenzene chemistry: Role of copper in the Sheppard reaction, direct fluorination of aromatic sulfonyl chlorides, and several potentially energetic SF ₅ -benzenes A.M. Sipyagin, C.P. Bateman, A.V. Matsev, A. Waterfeld, R.E. Jilek, C.D. Key, G.J. Szulczewski and J.S. Thrasher.....	203
Trifluoromethyl-derived enamines and their difluoroboron complexes: Synthesis, crystal structure and electrochemistry properties N. Chopin, G. Pilet, Y. Morita and M. Médebielle	211
Preparation of fluorinated RNA nucleotide analogs potentially stable to enzymatic hydrolysis in RNA and DNA polymerase assays A. Shakhmin, J.-P. Jones, I. Bychinskaya, M. Zibinsky, K. Oertell, M.F. Goodman and G.K.S. Prakash	226
Radical (2-pyridylsulfonyl)difluoromethylation of terminal alkenes with iododifluoromethyl 2-pyridyl sulfone W. Miao, C. Ni, Y. Zhao and J. Hu	231
