

Volume 54, Issue 2

April 2025

13 articles in this issue

The Issue of Type Synthesis of Kinematic Chains of Spherical Parallel Mechanisms with Linear Drives

P. A. LaryushkinA. A. KhrestinaA. V. Semenov

MECHANICS OF MACHINES | 06 April 2025 | Pages: 125 - 132

Constitutive Equations of a Plastically Deformable Body with FEM-Based Implementation in the Calculation of a Shell Considering Shear Strain

M. Yu. KlochkovV. A. PshenichkinaT. A. Sobolevskaya

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 133 - 142

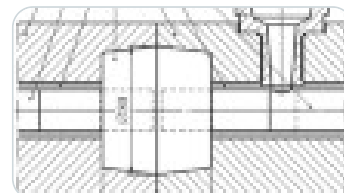

Increasing the Reliability and Reducing the Cost of Base Members Made of Aluminum-Based Alloys

V. F. KorostelevM. S. Denisov

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 143 - 149

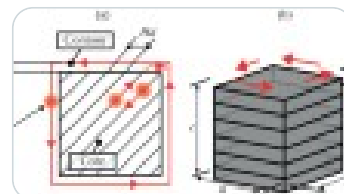

Statistical Approaches to Analysis of the Roughness of Vertical Surfaces of Samples Manufactured by the SLM Technology from AlSi10Mg Powder

K. S. KorobovA. V. RipetskyL. N. Lesnevsky

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 150 - 158

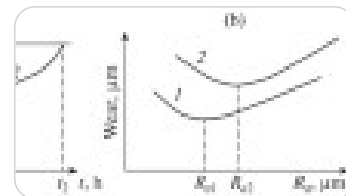

Calculation of Surface Roughness Parameters of Parts in Designing Accuracy Standards for Critical Joints

O. A. LeonovN. Zh. ShkarubaD. U. Khas'yanova

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 159 - 166

Improving the Surface Quality of Gear Trains by Combined Finishing Treatment

A. Yu. AlbagachievA. P. YakovlevaA. G. Karavanova

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 167 - 174

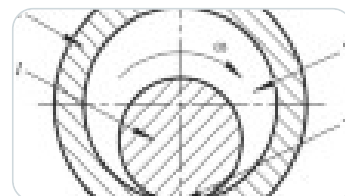

Computational and Theoretical Model of the Stress–Strain State of High-Load Friction Units

S. V. KartsevO. V. BarminaS. G. Elagin

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES

06 April 2025 | Pages: 175 - 181

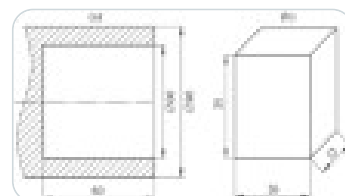

Analysis of the Characteristics of the Linear and Inertia Friction Welding Processes of Nickel Alloys

A. Yu. MedvedevV. R. GalimovT. T. Fozilov

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 06 April 2025 |

Pages: 182 - 189

Development of the Design of a Pneumo-Hydraulic Drive for a Hydraulic Emergency Rescue Tool

V. V. KiselevA. V. Toporov

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 06 April 2025 |

Pages: 190 - 194

Study of Finishing and Hardening Machining of Cycloidal Screw Surfaces in a Single Setup with Shaping

I. O. ZeninP. D. AkulinichevA. A. Goncharov

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 06 April 2025 |

Pages: 195 - 199

Nesting of Semifinished and Finished Products from Titanium Alloys by Laser Cutting

S. N. PolyanskiiS. V. ButakovV. A. Aleksandrov

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 06 April 2025 |
Pages: 200 - 209

Integration of Digital Twins in Mechanical Engineering: Information Support, Modeling, and Management of the Product Life Cycle

M. N. ErofeevI. N. KravchenkoM. V. Kryukov

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 06 April 2025 |
Pages: 210 - 215

Study of the Temperature Regimes of Bearing Assemblies of the Middle Bridge of a KamAZ Vehicle to Ensure Their Monitorability

E. P. TimashovA. G. Pastukhov

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 06 April 2025 |
Pages: 216 - 222
