

24 articles in this issue

Estimated Parameters of the Elastic Suspension of a Resonant Vibration Machine

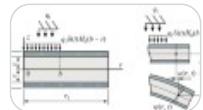

MECHANICS OF MACHINES | 09 December 2025 | Pages: 703 - 712

Construction of Centroids of Noncircular Gears to Reduce the Irregularity of Rotation of the Input Link of a Piston Compressor

MECHANICS OF MACHINES | 09 December 2025 | Pages: 713 - 722

Oscillations of a Sandwich Plate in a Temperature Field Caused by Local Impulses

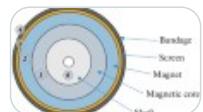

MECHANICS OF MACHINES | 09 December 2025 | Pages: 723 - 730

Modeling of Friction and Wear Parameters of Carbon Materials Using Regression Analysis (the Example of Metal-Carbon Material Contact Pairs)

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 731 - 738

Method for Calculating Interference Fits of High-Speed Rotors with a Multilayer Structure

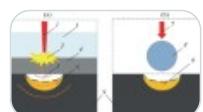

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 739 - 747

Activation Energy in the Reaction Rate Problems of Tribocatalytic Kinetics

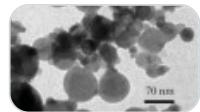

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 748 - 756

Analytical Model for Determining Residual Stresses Arising during Processing of Materials Using Laser Shock Peening Technology

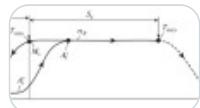

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 757 - 765

Comparative Analysis of the Influence of Electrostimulating Deformation on the Electrical Resistance of Copper

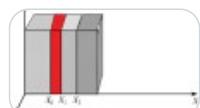

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 766 - 770

A Power Drive for Thermal Devices Made of the TiNi-Based Shape Memory Alloy

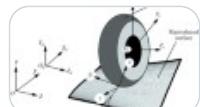

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 771 - 776

Singularities of Perturbation Theory Applied to Describing Boundary Conditions of the Third Kind on the Surface of Woven Electric Heaters

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 09 December 2025 |
Pages: 777 - 785

Method of Conjugated Surfaces for Reproducing Objects of Complex Spatial Shape

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 09 December 2025 | Pages: 786 - 794

Method of Group Distribution of Masses of Fragments of Combined Reflector Cases for Studying Their Effective Operating Modes

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 09 December 2025 | Pages: 795 - 802

Typology of Neural Networks Used in Designing Autonomous Driving Systems for Electric Transport

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 09 December 2025 | Pages: 803 - 811

Solution to the Problem of Positioning the Surgical Assistant Robot for Manipulation of the Soloassist® Endoscope (Aktormed)

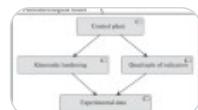

AUTOMATION AND CONTROL IN ENGINEERING | 09 December 2025 | Pages: 812 - 820

Development of an Automated Database of Performance Specifications of Mobile Power Utilities in the Agroindustrial Sector

AUTOMATION AND CONTROL IN ENGINEERING | 09 December 2025 | Pages: 821 - 827

Development of Models for Managing Technological Processes for Production of Products of Mechanical Engineering

Control of In-Pipe Robotic System Using Wireless Data Transmission

AUTOMATION AND CONTROL IN ENGINEERING | 09 December 2025 | Pages: 833 - 842

Developing a Stand for Simulation of the Working Environment for In-Plant Testing of Peristaltic Pump Units

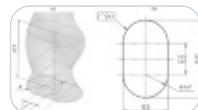

AUTOMATION AND CONTROL IN ENGINEERING | 09 December 2025 | Pages: 843 - 849

Corrective Algorithm for Controlling the Thrust Vector of a Spacecraft Propulsion System during Dynamic Operations in Orbit

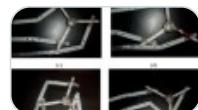

AUTOMATION AND CONTROL IN ENGINEERING | 09 December 2025 | Pages: 850 - 854

Study of the Accuracy of Internal Cycloidal Helical Surfaces Obtained by Gerotor Drilling

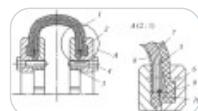

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 09 December 2025 | Pages: 855 - 860

Experimental Studies of Special Positions of a Parallel Structure Planar Manipulator

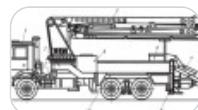

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 09 December 2025 | Pages: 861 - 869

Contact Deformation of Rubberized-Cord Toroidal Enclosures of Coupling Joints of Drives with Two Cord Monolayers

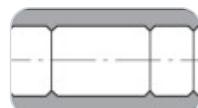

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 09 December 2025 | Pages: 870 - 877

Experimental Study of a Truck-Mounted Concrete Pump Boom

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 09 December 2025 | Pages: 878 - 883

Testing of Different Batches of TiNi-Based Shape Memory Alloys

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 09 December 2025 | Pages: 884 - 887
