Development of Electromechanical Manipulators Based on Permanent Magnets

MECHANICS OF MACHINES | 22 December 2025 | Pages: 889 - 893

Simulation of Oscillations of a Type 2a–2a Underframe in the Longitudinal Vertical Plane

MECHANICS OF MACHINES | 22 December 2025 | Pages: 894 - 899

Developing a Mobile Robotic Facility for Diagnosing Tank Equipment

MECHANICS OF MACHINES | 22 December 2025 | Pages: 900 - 909

Simulation of Frictional Temperature under Shear and Velocity Fluctuations

MECHANICS OF MACHINES | 22 December 2025 | Pages: 910 - 915

Analysis of Local Deformation Distributions during the Fracture of a Cracked Sample

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 22 December 2025 | Pages: 916 - 925

Identifying Parameters for the Elastic-Damping Properties of a Structural Material According to the Results of Vibration Testing

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 22 December 2025 | Pages: 926 - 934

The Effect of the Ultrasonic Processing Mode on Surface Microhardness

Study of the Performance and Reliability of Hydraulic Joints Depending on the Distribution of Seals on the Contact Surfaces and the Amount of Fluid Leakage

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 22 December 2025
Pages: 941 - 948

Study of the Stability of a Shell Compressed by External Pressure Taking into Account the Influence of Imperfections

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 22 December 2025
Pages: 949 - 956

Tribodynamic Analysis of ESVP Filter Failures

RELIABILITY, STRENGTH, AND WEAR RESISTANCE OF MACHINES AND STRUCTURES | 22 December 2025
Pages: 957 - 965

Simulations of the Resource-saving Thermal Process during “Hot” Oil Pumping through a Pipeline

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 22 December 2025 | Pages: 966 - 971

Determining the Surface Energy of Metals Using Machine Learning

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 22 December 2025 | Pages: 972 - 980

The Combined Influence of the Laser Radiation Parameters on the Mechanical Response of Materials under Laser Shock Peening

NEW TECHNOLOGIES IN MECHANICAL ENGINEERING | 22 December 2025 | Pages: 981 - 989

Increasing the Accuracy of Electric Drives of Industrial Robots by Using Position Identifiers in Tracking Control Systems

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 990 - 996

Automation of Interpolation Method Selection in Motion Planning for a Collaborative Robot in Machining Operations

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 997 - 1007

A Measuring and Recording Complex for Automating the Quality Control of Small Gear Fitting on the Shaft of a Locomotive Traction Motor

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 1008 - 1014

Adaptive Control of Technological Processes

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 1015 - 1023

Overview of the Machine Tool Servo Drive System Using the FANUC CNC as an Example

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 1024 - 1029

Development of a Program for Process Monitoring in Production Systems

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 1030 - 1037

An Industrial Digital Twin of a Manufacturing Enterprise

AUTOMATION AND CONTROL IN ENGINEERING | 22 December 2025 | Pages: 1038 - 1046

Study of Inhomogeneous Residual Stress Fields by Drilling a "Large Hole" in Combination with Phase Shifting Shearing Interferometry

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 22 December 2025 | Pages: 1047 - 1055

Assessment of Wear Resistance of VT20 Alloy Samples Subject to Ion Nitriding

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 22 December 2025 | Pages: 1056 - 1061

Study of Oscillatory Processes in Backlash-Free Gear Engagement

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 22 December 2025 | Pages: 1062 - 1067

The Influence of Soil Pressure on Abrasive Wear Resistance and Wear Geometry of the Working Surface of Cultural Moldboards

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 22 December 2025 | Pages: 1068 - 1073

A Methodology for Experimental Studies on Residual Stresses in the Annular Grooves of Critical-Purpose Equipment

EXPERIMENTAL MECHANICS, DIAGNOSTICS, AND TESTING | 22 December 2025 | Pages: 1074 - 1083
