Journal of Mammalogy

An Official Publication of the
American Society of Mammalogists

Volume 94, Number 6

16 December 2013

CONTENTS

FEATURE ARTICLES

- Social relationships and reproductive behavior of island foxes inferred from proximity logger data—*Katherine Ralls, Jessica N. Sanchez, Jennifer Savage, Timothy J. Coonan, Brian R. Hudgens, and Brian L. Cypher* .. 1185
- Small mammals exhibit limited spatiotemporal structure in Sierra Nevada forests—*Douglas A. Kelt, Dirk H. Van Vuren, Michael L. Johnson, James A. Wilson, Robin J. Innes, Brett R. Jesmer, Katherine P. Ingram, Jaya R. Smith, Seth W. Bigelow, Ryan D. Burnett, and Peter A. Stine* 1197
- Use of genetics to investigate socially learned foraging behavior in free-ranging black bears—*John B. Hopkins III* 1214
- Ecological determinants of clinal morphological variation in the cranium of the North American gray wolf—*F. Robin O’Keefe, Julie Meachen, Elizabeth V. Fet, and Alexandria Brannick* 1223
- Facultative geophagy at natural licks in an Australian marsupial—*Emily C. Best, Julia Joseph, and Anne W. Goldizen* 1237
- Dietary niche partitioning by sympatric *Peromyscus boylii* and *P. californicus* in a mixed evergreen forest—*Rachel E. B. Reid, Eli N. Greenwald, Yiwei Wang, and Christopher C. Wilmers* 1248
- Female mobility and the mating system of the banner-tailed kangaroo rat (*Dipodomys spectabilis*)—*Molly C. Steinwald, Bradley J. Swanson, Jacqueline M. Doyle, and Peter M. Waser* 1258
- Mating system and reproductive success in the Siberian flying squirrel—*Vesa Selonen, Jodie N. Painter, Salla Rantala, and Ilpo K. Hanski* 1266
- Nest tree and site selection of an introduced population of red-bellied squirrels (*Sciurus aureogaster*)—*Geoffrey H. Palmer, John L. Koprowski, and Anthony J. Pernas* 1274
- Effects of genetic management on reproduction, growth, and survival in captive endangered pygmy rabbits (*Brachylagus idahoensis*)—*Becky A. Elias, Lisa A. Shipley, Sarah McCusker, Rodney D. Saylor, and Timothy R. Johnson* 1282
- Regional variation in body size of the cheetah (*Acinonyx jubatus*)—*Lorraine K. Boast, Ann Marie Houser, Kyle Good, and Markus Gusset* 1293
- Ontogeny of sexual size dimorphism in the spotted hyena (*Crocuta crocuta*)—*Eli M. Swanson, Teresa L. McElhinny, Ian Dworkin, Mary L. Weldele, Stephen E. Glickman, and Kay E. Holekamp* 1298

JOURNAL OF MAMMALOGY (ISSN 0022-2372) is an official publication of the American Society of Mammalogists and is published 6 times per year in February, April, June, August, October, and December. Publishing services are provided by Allen Press Publishing Services, 810 East 10th Street, Lawrence, KS 66044. Member subscription prices for 2013 are \$75.00 for members and \$55.00 for students for print and online access for *Journal of Mammalogy* and online access only for *Mammalian Species*; rates for online access only to both publications are \$55.00, \$20.00 for members in developing countries. Institutional subscriptions in 2013 are \$312.00 for U.S. print and online access to the *Journal*, \$111.00 for online-only access to *Mammalian Species*, or \$461.00 outside the United States for both publications. Subscriptions, changes of address, and requests for missing issues should be sent to *Journal of Mammalogy*, Allen Press Association Management Services, 810 East 10th Street, P.O. Box 1897, Lawrence, KS 66044-8897; 785-843-1234; FAX 785-843-1274; asm@allenpress.com. A “claim” is hereby defined as a request by a subscriber of a publication due to damage, faulty copy or non-receipt. All claims must be submitted via mail, fax or email. All claim requests must be received within two months of the journal mail date for United States addresses and four months for non-United States addresses. If claim is approved, replacement issue(s) will only be provided once. After initial replacement, the issue must be purchased. The maximum that can be claimed per subscription term is 2. Specific membership concerns should be sent to the Secretary-Treasurer, at ron.van_den_bussche@okstate.edu. Periodicals postage paid at Lawrence, KS. POSTMASTER: Send address changes to *Journal of Mammalogy*, Allen Press Association Management Services, 810 East 10th Street, P.O. Box 1897, Lawrence, KS 66044-8897.

THIS PUBLICATION IS PRINTED ON ACID-FREE PAPER

Partitioning of foraging resources between sympatric Indiana and little brown bats— <i>S. M. Bergeson, Timothy C. Carter, and Michael D. Whitby</i>	1311
How fecal subsampling methods affect the accuracy of dietary pollen detection— <i>Annette T. Scanlon and Sophie Petit</i>	1321
A new species of tapir from the Amazon— <i>Mario A. Cozzuol, Camila L. Clozato, Elizete C. Holanda, Flávio H. G. Rodrigues, Samuel Nienow, Benoit de Thoisy, Rodrigo A. F. Redondo, and Fabrício R. Santos</i> ..	1331
The genus <i>Hylaeamys</i> Weksler, Percequillo and Voss 2006 (Rodentia: Cricetidae: Sigmodontinae) in the Brazilian Atlantic Forest: geographic variation and species definition— <i>Pamella G. G. Brennand, Alfredo Langguth, and Alexandre R. Percequillo</i>	1346
American badgers selectively excavate burrows in areas used by black-footed ferrets: implications for predator avoidance— <i>David A. Eads, Dean E. Biggins, Travis J. Livieri, and Joshua J. Millspaugh</i>	1364
Scaling of antler size in reindeer (<i>Rangifer tarandus</i>): sexual dimorphism and variability in resource allocation— <i>Natalka A. Melnycky, Robert B. Weladji, Øystein Holand, and Mauri Nieminen</i>	1371
Safety from predators or competitors? Interference competition leads to apparent predation risk— <i>William D. Halliday and Douglas W. Morris</i>	1380
Locomotor activity patterns of captive East African root rats, <i>Tachyoryctes splendens</i> (Rodentia: Spalacidae), from Tanzania, East Africa— <i>Jestina Venance Katandukila, Nigel Charles Bennett, Christian Timothy Chimimba, Christopher Guy Faulkes, and Maria Kathleen Oosthuizen</i>	1393
Assessing the impact of live-capture, confinement, and translocation on stress and fate in eastern gray squirrels— <i>Curtis O. Bosson, Rupert Palme, and Rudy Boonstra</i>	1401
Phylogeny, diversity, and biogeography of Southeast Asian spiny rats (<i>Maxomys</i>)— <i>Anang S. Achmadi, Jacob A. Esselstyn, Kevin C. Rowe, Ibnu Maryanto, and M. T. Abdullah</i>	1412
Size and shape in cranial evolution of 2 marsupial genera: <i>Didelphis</i> and <i>Philander</i> (Didelphimorphia, Didelphidae)— <i>Harley Sebastião and Gabriel Marroig</i>	1424
Reproductive phenologies of phyllostomid bats in Costa Rica— <i>Kathryne A. Durant, Ryan W. Hall, Laura M. Cisneros, Rachael M. Hyland, and Michael R. Willig</i>	1438
Effects of seed quality and abundance on the foraging behavior of deer mice— <i>Nikhil Lobo, Derek J. Green, and John S. Millar</i>	1449
Impact of farmland use on population density and activity patterns of serval in South Africa— <i>Tharmalingam Ramesh and Colleen T. Downs</i>	1460

Front Cover—A mated pair of island foxes (*Urocyon littoralis*) on Santa Cruz Island, California. An article by Ralls et al. (pages 1185-1196) introduces a new method for identifying mated pairs and documents the frequency and duration of contacts between paired and unpaired foxes. Photo by Brent Wilson.
