CONTENTS

FEATURE ARTICLES

Occupancy and habitat correlates of javelinas in the southern San Andres Mountains, New Mexico— <i>Louis C. Bender, Mara E. Weisenberger, and Octavio C. Rosas-Rosas</i>	1
Cryptic divergence and revised species taxonomy within the Great Basin pocket mouse, <i>Perognathus parvus</i> (Peale, 1848), species group— <i>Brett R. Riddle, Tereza Jezkova, Mallory E. Eckstut, Viktória Oláh-Hemmings, and Leslie N. Carraway</i>	9
Molecular phylogenetics of the <i>Handleyomys chapmani</i> complex in Mesoamerica— <i>Ana Laura Almendra, Duke S. Rogers, and Francisco X. González-Cózatl</i>	26
Noninvasive sampling and genetic variability, pack structure, and dynamics in an expanding wolf population— <i>Romolo Caniglia, Elena Fabbri, Marco Galaverni, Pietro Milanese, and Ettore Randi</i>	41
A new species of the tetraploid vizcacha rat <i>Tympanoctomys</i> (Caviomorpha, Octodontidae) from central Patagonia, Argentina— <i>Pablo Teta, Ulyses F. J. Pardiñas, Daniel E. Udrizar Sauthier, and Milton H. Gallardo</i>	60
Dietary plasticity in pikas as a strategy for atypical resource landscapes— <i>Johanna Varner and M. Denise Dearing</i>	72
Rodent populations on the northern Great Plains respond to weather variation at a landscape scale— <i>Leanne M. Heisler, Christopher M. Somers, and Ray G. Poulin</i>	82
Activity, overlap of range areas, and sharing of resting locations in the moon-toothed degu, <i>Octodon lunatus</i> — <i>Raúl Sobrero, Álvaro Ly Prieto, and Luis A. Ebensperger</i>	91
Elevation patterns in rodent diversity in the dry Andes: disentangling the role of environmental factors— <i>Agustina Novillo and Ricardo A. Ojeda</i>	99
White-footed mice (<i>Peromyscus leucopus</i>) select fruits of native species over invasive honeysuckle fruits— <i>Charneé L. Rose, Philip J. Turk, Stephen M. Selego, and James T. Anderson</i>	108
Large-scale climate variation modifies the winter grouping behavior of endangered Indiana bats— <i>Wayne E. Thogmartin and Patrick C. McKann</i>	117

JOURNAL OF MAMMALOGY (ISSN 0022-2372) is an official publication of the American Society of Mammalogists and is published 6 times per year in February, April, June, August, October, and December. Publishing services are provided by Allen Press Publishing Services, 810 East 10th Street, Lawrence, KS 66044. Member subscription prices for 2014 are \$75.00 for members and \$55.00 for students for print and online access for *Journal of Mammalogy* and online access only for *Mammalian Species*; rates for online access only to both publications are \$55.00, \$20.00 for members in developing countries. Institutional subscriptions in 2014 are \$312.00 for U.S. print and online access to the *Journal*, \$111.00 for online-only access to *Mammalian Species*, or \$461.00 outside the United States for both publications. Subscriptions, changes of address, and requests for missing issues should be sent to *Journal of Mammalogy*, Allen Press Association Management Services, 810 East 10th Street, P.O. Box 1897, Lawrence, KS 66044-8897; 785-843-1234; FAX 785-843-1274; asm@allenpress.com. A "claim" is hereby defined as a request by a subscriber of a publication due to damage, faulty copy or non-receipt. All claims must be submitted via mail, fax or email. All claim requests must be received within two months of the journal mail date for United States addresses and four months for non-United States addresses. If claim is approved, replacement issue(s) will only be provided once. After initial replacement, the issue must be purchased. The maximum that can be claimed per subscription term is 2. Specific membership concerns should be sent to the Secretary-Treasurer, at ron.van_den_bussche@okstate.edu. Periodicals postage paid at Lawrence, KS. POSTMASTER: Send address changes to *Journal of Mammalogy*, Allen Press Association Management Services, 810 East 10th Street, P.O. Box 1897, Lawrence, KS 66044-8897.

THIS PUBLICATION IS PRINTED ON ACID-FREE PAPER

Vocal repertoire, individual acoustic distinctiveness and social networks in a group of captive Asian small-clawed otters (<i>Aonyx cinerea</i>)— <i>Alban Lemasson, Marie-Ana Mikus, Catherine Blois-Heulin, and Thierry Lodé</i>	128
Sociospatial organization of a solitary carnivore, the Eurasian otter (<i>Lutra lutra</i>)— <i>Lorenzo Quaglietta, Vania C. Fonseca, António Mira, and Luigi Boitani</i>	140
Variation in the stable carbon and nitrogen isotope discrimination factors from diet to fur in four felid species held on different diets— <i>Emily Parng, Ali Crumppacker, and Carolyn M. Kurlle</i>	151
Macronutrient optimization and energy maximization determine diets of brown bears— <i>Joy A. Erlenbach, Karyn D. Rode, David Raubenheimer, and Charles T. Robbins</i>	160
Differences in sperm whale codas between two waters off Japan: possible geographic separation of vocal clans— <i>Masao Amano, Aya Kouroggi, Kagari Aoki, Motoi Yoshioka, and Kyoichi Mori</i>	169
Morphometric, karyotypic, and molecular evidence for a new species of <i>Peromyscus</i> (Cricetidae: Neotominae) from Nayarit, Mexico— <i>Robert D. Bradley, Nicté Ordóñez-Garza, Cibele G. Sotero-Caio, Howard M. Huynh, C. William Kilpatrick, L. Ignacio Iñiguez-Dávalos, and David J. Schmidly</i>	176

SUPPLEMENTAL ONLINE-ONLY FEATURE ARTICLE

Integrative taxonomy within the <i>Hylomyscus denniae</i> complex (Rodentia: Muridae) and a new species from Kenya— <i>Terrence C. Demos, Bernard Agwanda, and Michael J. Hickerson</i>	DOI: 10.1644/13-MAMM-A-268
Erratum	DOI: 10.1644/13-MAMM-A-268

REVIEWS

Oswaldo Reig: La Vida Itinerante de un Biólogo Evolucionista by Ponsà Fontanals— <i>Robert P. Anderson</i>	187
Population Fluctuations in Rodents by C. J. Krebs— <i>George O. Batzli</i>	189
Terrestrial Mammals of the West Indies by R. Borroto-Páez, C. A. Woods, and F. E. Sergile (eds.)— <i>Gary S. Morgan</i>	191

Front Cover—A javelina (*Pecari tajacu*) in the southern San Andres Mountains of south-central New Mexico. An article by Bender et al. (pages 1–8) notes that javelinas appear dependent upon a tree or shrub overstory, ideally associated with riparian corridors, necessary to mitigate heat stress associated with occupancy of Chihuahuan desert habitats. Photo taken by Larry Ditto.
