Journal of Optimization Theory and Applications

Volume 159 · Number 2 · November 2013

Global Optimality Conditions for Optimal Control Problems with Functions of A.D. Alexandrov

A.S. Strelakovsky 297

Copositive Programming via Semi-Infinite Optimization

F. Ahmed · M. Dür · G. Still 322

Exceptional Families of Elements for Optimization Problems in Reflexive Banach Spaces with Applications

R.-y. Zhong · H.-x. Lian · J.-h. Fan 341

Some Results on Augmented Lagrangians in Constrained Global Optimization via Image Space Analysis

H.Z. Luo · H.X. Wu · J.Z. Liu 360

Nonconvex Differential Variational Inequality and State-Dependent Sweeping Process

T. Haddad 386

Strong Convergence to Solutions for a Class of Variational Inequalities in Banach Spaces by Implicit Iteration Methods

N. Buong · N.T.H. Phuong 399

Inexact Alternating Direction Methods of Multipliers with Logarithmic-Quadratic Proximal Regularization

M. Li · L.-Z. Liao · X. Yuan 412

A Lower Bound for the Penalty Parameter in the Exact Minimax Penalty Function Method for Solving Nondifferentiable Extremum Problems

T. Antczak 437

Parameter Tuning of Multi-Proportional-Integral-Derivative Controllers Based on Optimal Switching Algorithms

X. Wu · K. Zhang · C. Sun 454

Predictor-Corrector Methods for General Regularized Nonconvex Variational Inequalities

Q.H. Ansari · J. Balooee 473

Optimal Kinematics of a Looped Filament

F. Maggioni · F.A. Potra · M. Bertocchi 489

Robust Pole Placement in a Specified Trapezoid Region for Flexible Manipulators

T.C. Kuo · Y.J. Huang · C.Y. Chen · P.C. Wu · B.W. Hong 507

A Fuzzy Principal Component Analysis Approach to Hierarchical Evaluation Model for Balanced Supply Chain Scorecard Grading

S. Xian · D. Qiu · S. Zhang 518

A Simplified Novel Technique for Solving Fully Fuzzy Linear Programming Problems

I.U. Khan · T. Ahmad · N. Maan 536

Duality and Weak Efficiency in Vector Variational Problems

M. Arana Jiménez · F. Ortega Gallego 547

A Note on the Paper “On Approximately Star-Shaped Functions and Approximate Vector Variational Inequalities”

S.K. Mishra · V. Laha 554
