Topical reviews

Magnetic reflectometry of heterostructures

S Macke and E Goering

exciting: a full-potential all-electron package implementing density-functional theory and many-body perturbation theory

Andris Gulans, Stefan Kontur, Christian Meisenbichler, Dmitrii Nabok, Pasquale Pavone, Santiago Rigamonti, Stephan Sagmeister, Ute Werner and Claudia Draxl

TOPICAL REVIEWS

363201 Magnetic reflectometry of heterostructures

S Macke and E Goering

363202 exciting: a full-potential all-electron package implementing density-functional theory and many-body perturbation theory

Andris Gulans, Stefan Kontur, Christian Meisenbichler, Dmitrii Nabok, Pasquale Pavone, Santiago Rigamonti, Stephan Sagmeister, Ute Werner and Claudia Draxl

PAPERS

NANOSTRUCTURES AND NANOELECTRONICS

365301 Noise-assisted charge pump in elastically deformable molecular junctions

C A Perroni, F Romeo, A Nocera, V Marigliano Ramaglia, R Citro and V Cataudella

365302 High pressure study of Li-doped fullerenes, Li_xC_{60} ($x = 4,12$), by x-ray diffraction and Raman spectroscopy

V Pischedda, M Yao, R Debord, G Gabarino and A San-Miguel

SOLID STRUCTURE AND LATTICE DYNAMICS

365401 Theoretical and experimental search for ZnSb-based thermoelectric materials

K Niedziolka, R Pothin, F Rouessac, R M Ayrál and P Jund

365402 Autonomous basin climbing method with sampling of multiple transition pathways: application to anisotropic diffusion of point defects in hcp Zr

Yue Fan, Sidney Yip and Bilge Yildiz

ELECTRONIC STRUCTURE

365501 Group-IV nanosheets with vacancies: a tight-binding extended Hückel study

Adriano de Souza Martins and Marcos Veríssimo-Alves

365502 Self-consistent Green's function method for dilute nitride conduction band structure

Masoud Seifikaer, Eoin P O'Reilly and Stephen Fahy

365503 Unified theory of electron-phonon renormalization and phonon-assisted optical absorption

Christopher E Patrick and Feliciano Giustino

MAGNETISM AND MAGNETIC MATERIALS

366001 Electronically- and crystal-structure-driven magnetic structures and physical properties of RScSb (R = rare earth) compounds: a neutron diffraction, magnetization and heat capacity study

C Ritter, S K Dhar, R Kulkarni, A Provino, D Paudyal, P Manfrinetti and K A Gschneidner

ERRATUM

369601 Erratum: Shape dependence of the radial distribution function of hydration water around proteins (2014 *J. Phys.: Condens. Matter* 26 335102)

Pooja Rani and Parbati Biswas
