## Contents

### PHYSIOLOGY

- Avocado roots treated with salicylic acid produce phenol-2,4-bis (1,1-dimethylethyl), a compound with antifungal activity**  
G. Rangel-Sánchez, E. Castro-Mercado, E. García-Pineda \_\_\_\_\_ 189
- Discrimination against  $^{15}\text{N}$  among recombinant inbred lines of *Phaseolus vulgaris* L. contrasting in phosphorus use efficiency for nitrogen fixation**  
M. Lazali, A. Bargaz, G. Carlsson, S.M. Ounane, J.J. Drevon \_\_\_\_\_ 199
- Stress and salicylic acid induce the expression of *PnFT2* in the regulation of the stress-induced flowering of *Pharbitis nil***  
M. Yamada, K. Takeno \_\_\_\_\_ 205
- Identification and expression of different dehydrin subclasses involved in the drought response of *Trifolium repens***  
I.I. Vaseva, I. Anders, U. Feller \_\_\_\_\_ 213
- The involvement of *InMIR167* in the regulation of expression of its target gene *InARF8*, and their participation in the vegetative and generative development of *Ipomoea nil* plants**  
P. Glazińska, W. Wojciechowski, E. Wilmowicz, A. Zienkiewicz, K. Frankowski, J. Kopcewicz \_\_\_\_\_ 225
- Proteomic analysis of *Arabidopsis thaliana* leaves in response to acute boron deficiency and toxicity reveals effects on photosynthesis, carbohydrate metabolism, and protein synthesis**  
M. Chen, S. Mishra, S.A. Heckathorn, J.M. Frantz, C. Krause \_\_\_\_\_ 235
- Phospholipids profile in chloroplasts of *Coffea* spp. genotypes differing in cold acclimation ability**  
P. Scotti-Campos, I.P. Pais, F.L. Partelli, P. Batista-Santos, J.C. Ramalho \_\_\_\_\_ 243
- Temperature-induced lipocalin (TIL) is translocated under salt stress and protects chloroplasts from ion toxicity**  
A. Abo-Ogiala, C. Carsjens, H. Diekmann, P. Fayyaz, C. Herrfurth, I. Feussner, A. Polle \_\_\_\_\_ 250
- Variation of antioxidants and secondary metabolites in nitrogen-deficient barley plants**  
J. Kováčik, B. Klejduš, P. Babula, M. Jarošová \_\_\_\_\_ 260
- A dissection of the effects of ethylene,  $\text{H}_2\text{O}_2$  and high irradiance on antioxidants and several genes associated with stress and senescence in tobacco leaves**  
E. Golemić, K. Tokarz, M. Wielanek, E. Niewiadomska \_\_\_\_\_ 269
- Responses of cyclic phosphorylation of MAPK-like proteins in intertidal macroalgae after environmental stress**  
M.L. Parages, J.M. Capasso, F.X. Niell, C. Jiménez \_\_\_\_\_ 276
- Phosphorus deficiency affects the allocation of below-ground resources to combined cluster roots and nodules in *Lupinus albus***  
R. Thuynsma, A. Valentine, A. Kleinert \_\_\_\_\_ 285
- Culture temperature affects gene expression and metabolic pathways in the 2-methylisoborneol-producing cyanobacterium *Pseudanabaena galeata***  
M. Kakimoto, T. Ishikawa, A. Miyagi, K. Saito, M. Miyazaki, T. Asaeda, M. Yamaguchi, H. Uchimiya, M. Kawai-Yamada \_\_\_\_\_ 292
- Lateral root formation and patterning in *Medicago truncatula***  
V. Herrbach, C. Remblière, C. Gough, S. Bensmihen \_\_\_\_\_ 301
- Light-harvesting complex *B7* shifts the irradiance response of photosynthetic light-harvesting regulation in leaves of *Arabidopsis thaliana***  
R.B. Peterson, N.P. Schultes \_\_\_\_\_ 311
- Integrated operation of the photorespiratory cycle and cytosolic metabolism in the modulation of primary nitrogen assimilation and export of organic N-transport compounds from leaves: A hypothesis**  
J.B. Misra \_\_\_\_\_ 319

#### Abstracted/Indexed in

Biochemistry & Biophysics Citation Index; Bioscience Information System (BIOSIS); CAB Abstracts; Cambridge Scientific Abstracts (CSA); Chemical Abstracts Service (CAS); Current Awareness in Biological Sciences (CABS); Current Contents/Life Sciences; Current Contents/Agriculture, Biology & Environmental Sciences; Engineering Information/Compendex (CPX); Food Science and Technology Abstracts (FSTA); MEDLINE; Reference Update; Research Alert; Science Citation Index; SciExpanded; SciSearch. Also covered in the abstract and citation database Scopus®. Full text available on ScienceDirect®.

**Variable expansin expression in *Arabidopsis* leads to different growth responses**

H.-H. Goh, J. Sloan, R. Malinowski, A. Fleming \_\_\_\_\_ 329

**MOLECULAR BIOLOGY**

**Fine characterization of *OsPHO2* knockout mutants reveals its key role in Pi utilization in rice**

Y. Cao, Y. Yan, F. Zhang, H.-d. Wang, M. Gu, X.-n. Wu, S.-b. Sun, G.-h. Xu \_\_\_\_\_ 340

**Expression patterns and regulation of *SICRF3* and *SICRF5* in response to cytokinin and abiotic stresses in tomato (*Solanum lycopersicum*)**

S. Gupta, A.M. Rashotte \_\_\_\_\_ 349

**FUNCTIONAL BIOTECHNOLOGY**

**Expression of the 1-SST and 1-FFT genes and consequent fructan accumulation in *Agave tequilana* and *A. inaequidens* is differentially induced by diverse (a)biotic-stress related elicitors**

E.M. Suárez-González, M.G. López, J.P. Délano-Frier, J.F. Gómez-Leyva \_\_\_\_\_ 359

**Advertising rates:** At present the price list of January 1, 2014 is effective.

**Terms of delivery** (2014): Volume 171 (1 volume consisting of 18 issues).

**Subscription rate\* (2014):**

Region	Institutional	Persona	Single issue
Europe	EUR 3.385	EUR 496	EUR 239
Japan	YEN 459.900	YEN 64.900	YEN 37.500
USA/Rest of world	USD 3.678	USD 499	USD 260

\*All prices are suggested list prices and may be subject to change without notice. Prices include postage by surface mail and exclude VAT. VAT is effective according to international tax regulations as valid on the day of invoicing. Special airmail rates are available on request. Customers in EU countries are requested to state their VAT identification number if applicable.

Subscription orders at a personal rate must be addressed directly to the publisher and must include the recipient's name and residential address. An institutional or business address is only acceptable, if the institute or company has a subscription as well. Payment of personal subscribers has to be made by personal cheque or by credit card (Eurocard/Mastercard, VISA or American Express; please note card. No. and expiry date).

The publisher reserves the right to issue additional volumes during the course of the year. Supplements and/or cumulative indexes are included in the subscription rates.

**Termination of subscriptions:** Subscriptions not entered specifically for one year only will be renewed automatically unless cancelled by October 31.

**Subscriptions:** Please send your order to HGV Hanseatische Gesellschaft für Verlagsservice mbH, Servicecenter Fachverlage, Postfach 1164, 72125 Kusterdingen, Germany  
Phone: +49 (7071) 935316

**Cover picture:** Lateral leaves can form on date palms (*Phoenix dactylifera*) but usually show abnormal development. They rarely unfold and are densely zickzack-packed, the folding caused by a combination of mechanical pressure and repetitive leaf structural elements. Removed from the stem, they dry fast, become ligneous and form a stable piece of "natural art" reminiscent of ornamental design. The depicted leaf section measures approximately 50 X 50 mm.
