

8 articles in this issue

Average Chemical Composition of Sandy and Clayey Rocks in Large Different Age Structural Zones of Continents on Various Discriminant Diagrams

OriginalPaper | 03 February 2026 | Pages: 1 - 15

Reference Igetei Section (Middle Neopleistocene–Holocene, Cis-Baikal Region): Reconstruction of Conditions and Assessment of Sedimentation Environments Based on the Geochemical Data

OriginalPaper | 03 February 2026 | Pages: 16 - 39

Formation of Placers at the Expense of Cretaceous Auriferous Conglomerates (Aldan–Stanovoi Shield)

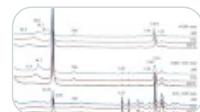

OriginalPaper | 03 February 2026 | Pages: 40 - 49

Fossil Resins from Cretaceous Sediments of the Taimyr Peninsula: Molecular Composition and Thermal Properties

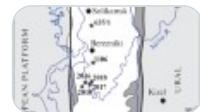

OriginalPaper | 03 February 2026 | Pages: 50 - 65

Authigenic Biotite in Quaternary Sediments from the Contact Zone with a Thick Sill, Hole DSDP 485/485A, Gulf of California

OriginalPaper | 03 February 2026 | Pages: 66 - 73

Facies and Hydroclimatic Reconstructions of Salt Formation Conditions in the Verkhnekamsk Deposit

OriginalPaper | 03 February 2026 | Pages: 74 - 86

Lithochemical Characteristics of Shungite-Bearing Fluidolites in the Paleoproterozoic Onega Structure

OriginalPaper | 03 February 2026 | Pages: 87 - 93

**Geochemical and Statistical Analysis of Terra Rossa Clay Minerals: a Case Study from
Osmaniye Almanpinari Region, Türkiye**

OriginalPaper | 03 February 2026 | Pages: 94 - 113
