

Magnetohydrodynamics 53, 1 (2017)

Special issue:

Selected papers of the 10th International Conference on Fundamental and Applied MHD Pamir 2016, Cagliari, Italia, June 20--24, 2016.

A. Montisci. PREFACE

3

Fundamental MHD

A. Sellier and S. H. Aydin. Creeping axisymmetric MHD flow about a sphere translating parallel with a uniform ambient magnetic field

5

G. Politis, A. Pedcenko and S. Molokoy. Magnetohydrodynamic waves in a rectangular vessel

15

A. Guseva, R. Hollerbach, A. P. Willis and M. Avila. Azimuthal magnetorotational instability at low and high magnetic Prandtl numbers

25

Th. Arlt, J. Priede and L. Bühler. Influence of thin finite conducting walls on the linear stability of magnetohydrodynamic duct flow

35

S. M. H. Mirhoseini, R. R. Diaz-Pacheco and F. A. Volpe. Passive and active electromagnetic stabilization of free-surface liquid metal flows

45

J. Román, A. Figueroa and S. Cuevas. Wake patterns behind a magnetic obstacle in an electrolyte layer

55

Z. Lyu and Ch. Karcher. Non-contact electromagnetic flow measurement in liquid metal two-phase flow using Lorentz force velocimetry

67

J. C. Domínguez-Lozoya, S. Cuevas, M. Rivero and E. Ramos. Instabilities in swirling liquid metal flows driven by rotating permanent magnets

79

P. Frick, R. Stepanov and I. Mizeva. Inverse cascades in helically magnetized turbulence

89

C. G. Lara, A. Figueroa and S. Cuevas. Nested dipolar vortices driven by electromagnetic forces in a thin liquid metal layer

97

G. Mamatsashvili and F. Stefani. Nonmodel analysis of helical and azimuthal magnetorotational instabilities

107

Yu. Kolesnikov, D. Krasnov and T. Boeck. Evolution of a round jet in a duct in the presence of a uniform axial magnetic field

119

N. Weber, P. Beckstein, V. Galindo, W. Herreman, C. Nore, F. Stefani and T. Weier.

129

Metal pad roll instability in liquid metal batteries
