

***Selected papers of the 10th International Conference on Fundamental and Applied MHD Pamir 2016, Cagliari, Italia, June 20--24, 2016.***

<u>A. Montisci</u> . PREFACE	231
------------------------------	-----

***Applied MHD***

<u>D. Hernández</u> , <u>T. Boeck</u> , <u>C. Karcher</u> and <u>T. Wondrak</u> . Numerical calibration of a multicomponent local Lorentz force flowmeter	233
<u>D. Musaeva</u> , <u>E. Baake</u> , <u>V. Ilin</u> and <u>G. Jarczyk</u> . Analysis of the AlMgSi-alloy structure formed under the influence of low-frequency pulsed Lorentz force	245
<u>S. Carcangiu</u> , <u>R. Forcinetti</u> and <u>A. Montisci</u> . Simulink model of an inductive MHD generator	255
<u>E. Sauvage</u> , <u>P. Brun</u> , <u>J. Lacombe</u> and <u>L. Aufore</u> . 3D simulation of a 500 kg UO <sub>2</sub> melt in a cold crucible induction furnace	267
<u>S. Khripchenko</u> , <u>S. Lekomtsev</u> , <u>S. Denisov</u> , <u>V. Dolgikh</u> and <u>A. Pavlinov</u> . Laboratory model of the aluminum furnace with mhd stirring induced by a rod-like inductor generating a travelling magnetic field	273
<u>A. Tatulčenkovs</u> , <u>A. Jakovičs</u> , <u>E. Baake</u> and <u>B. Nacke</u> . Numerical simulation of bubble flow in electroconducting liquids by the lattice Boltzmann method	281
<u>J. Etay</u> , <u>A. Diarra</u> , <u>A. Gagnoud</u> , <u>Ch. Garnier</u> , <u>S. Massucci</u> , <u>M. Al Amir</u> , <u>A. Sulpice</u> and <u>S. Rivoirard</u> . Measuring thermal conductivity and heat capacity of molten metallic alloys by electromagnetic levitation in DC field	289
<u>D. Kutyla</u> , <u>K. Kołczyk</u> , <u>R. Kowalik</u> and <u>P. Żabiński</u> . Instabilities in swirling liquid metal flows driven by rotating permanent magnets	299
<u>A. M. Białostocka</u> , <u>U. Klekotka</u> , <u>P. Żabiński</u> and <u>B. Kalska-Szostko</u> . Microstructure evolution of Fe/Ni layers deposited by electroplating under an applied magnetic field	309
<u>I. Mogi</u> , <u>R. Aogaki</u> and <u>K. Takahashi</u> . Chiral surface formation in magnetoelectrolysis on micro-electrodes	321
<u>A. Alemany</u> , <u>R. Forcinetti</u> , <u>F. Masson</u> and <u>A. Montisci</u> . FEM analysis of the inflation process of Magnetoplasma Sails	329

***Dynamo***

<u>R. A. Avalos-Zúñiga</u> , <u>J. Priede</u> and <u>C. E. Bello-Morales</u> . A homopolar disc dynamo experiment with liquid metal contacts	341
<u>A. Gailitis</u> and <u>G. Lipsbergs</u> . 2016 year experiments at Riga Dynamo Facility	349

### ***Ferrofluids***

M. Timko, M. Raj<sub>n</sub>ak, P. Kopčanský, K. Paulovicova, J. Kurimsky and B. Dolnik. Dielectric relaxations in a transformer oil-based magnetic fluid 365

L. Davoust, Y. Fouillet, R. Malk and J. Theisen. A review on AC electrodynamics at drop scale: electrowetting, capillary resonance and streaming-induced stirring 373

### ***Liquid metal technology***

T. Richter, O. Keplinger, E. Strumpf, T. Wondrak, K. Eckert, S. Eckert and S. Odenbach. Measurements of the diameter of rising gas bubbles by means of the ultrasound ... 383

C. Kasprzyk, E. Kaplan, M. Seilmayer and F. Stefani. Transitions in a magnetized quasi-laminar spherical Couette flow 393

Z. Lei, D. Raebiger, S. Eckert and K. Eckert. Liquid metal based magnetic cooling: velocity measurements 403

S. Smolentsev, M. Abdou, C. Courtessole, G. Pulugundla, F-C. Li, N. Morley, R. Munipalli, P. Huang, C. Kaczynski, J. Young, T. Rhodes and Y. Yan. Review of recent MHD activities for liquid metal blankets in the US 411

I. Bucenieks, E. Platacis, O. Mikanovskis, A. Zik and V. Mehta. Helical type EM induction pump with permanently magnetized rotor for high... 8195510ressure heads 423

Geun Hyeong Lee and Hee Reyoung Kim. Numerical investigation and comparison of the rectangular, cylindrical, and helical-type dc electromagnetic pumps 429
