## Reports: A Review Journal

Biodegradable Metals

Y.F. Zheng, X.N. Gu, F. Witte

Editor-in-Chief:  
Franky So

Guiding Editor:  
Paul Chu

Definition, category and currently-developed medical devices of biodegradable metals.

# Biodegradable Metals

## Contents

---

1. Introduction .....	2
1.1. Definition and classification of biodegradable metals .....	2
1.2. Development of biodegradable metals .....	3
1.3. Degradation mechanism and its influencing factors .....	3
1.3.1. Generalized degradation mechanism .....	3
1.3.2. Environmental Factors influencing the biodegradation behavior .....	4
1.4. Degeneration of mechanical integrity with time .....	5
1.5. Considerations on the biosafety of degradation products .....	5
1.6. Analytical methods of the degradation rate <i>in vivo</i> and <i>in vitro</i> .....	6
1.6.1. Analytical methods of the degradation rate <i>in vitro</i> .....	6
1.6.2. Analytical methods of the degradation rate <i>in vivo</i> .....	6
2. Pathophysiology and toxicology of metal elements used for biodegradable metals .....	6
3. Magnesium-based biodegradable metals .....	8
3.1. Development of Mg-based biodegradable metals .....	8
3.1.1. Pure Mg .....	8
3.1.2. Mg–Ca and Mg–Sr based alloy systems .....	9
3.1.3. Mg–Zn based alloy systems .....	9

3.1.4.	Mg–Si based alloy systems .....	10
3.1.5.	Mg–Sn based alloy systems .....	10
3.1.6.	Mg–Zr based alloy systems .....	10
3.1.7.	Mg–Al based alloy systems .....	11
3.1.8.	Mg–Y and Mg–REE based alloy systems .....	11
3.2.	Novel structure design for Mg-based biodegradable metals.....	11
3.2.1.	Porous structure .....	11
3.2.2.	Composite structure.....	12
3.2.3.	Ultrafine-grained structure .....	13
3.2.4.	Glassy structure.....	13
3.3.	Surface modification of Mg-based biodegradable metals .....	13
3.3.1.	Mechanical methods .....	13
3.3.2.	Chemical methods .....	14
3.3.3.	Physical methods .....	16
3.3.4.	Comprehensive comments on the current surface modification techniques .....	17
3.4.	Animal testing and clinical trials of Mg-based biodegradable metal implants .....	18
3.4.1.	Animal testing of Mg-based biodegradable metal implants within bone .....	18
3.4.2.	Animal and clinical testings on Mg-based biodegradable metal implants within blood vessels.....	18
4.	Iron-based biodegradable metals.....	20
4.1.	Development of Fe-based biodegradable metals.....	20
4.2.	Surface modification of Fe-based biodegradable metals .....	22
4.3.	Animal testing on Fe-based biodegradable metal implants .....	22
5.	Other biodegradable metals.....	23
5.1.	5.1 Zn-based alloys .....	23
5.2.	Tungsten .....	23
5.3.	Ca-based, Sr-based and Zn-based bulk metallic glasses (BMGs).....	24
6.	Design and processing of BMs – from raw materials to final medical devices.....	24
6.1.	Design and processing of BM raw materials into semi-products .....	24
6.1.1.	Alloy design of BM by theoretical calculation .....	24
6.1.2.	Processing of BM raw materials into semi-products .....	25
6.2.	Design and manufacturing of BM medical devices .....	25
6.2.1.	BM device design .....	25
6.2.2.	BM device manufacturing .....	27
7.	Concluding remarks and perspectives .....	27
7.1.	What are the ideal biodegradable metal devices.....	27
7.2.	How to use biodegradation byproducts .....	28
7.3.	Competition with permanent metallic materials and biodegradable polymers .....	29
7.4.	Challenge and future R&D direction for BM.....	30
	Acknowledgements.....	31
	References .....	31
