## Reports: A Review Journal

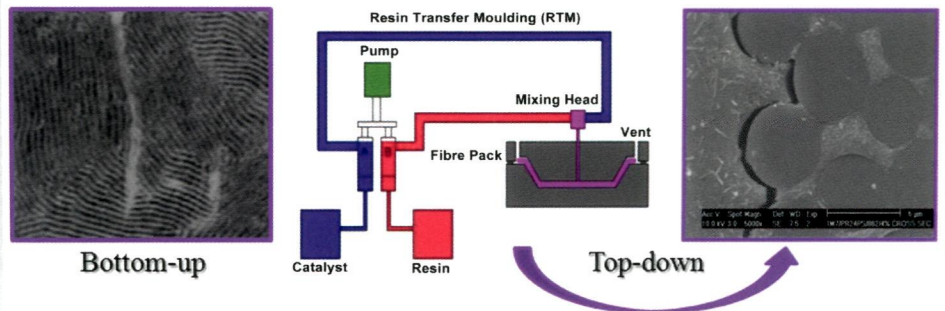

Processing of nanostructured polymers and advanced polymeric based nanocomposites

Laura Peponi, Debora Puglia, Luigi Torre, Luca Valentini, José M. Kenny

Editor-in-Chief:  
Franky So

Guiding Editor:  
Philippe Dubois

### *PROCESSING OF NANOSTRUCTURED POLYMERS AND ADVANCED POLYMERIC BASED NANOCOMPOSITES*

# Processing of nanostructured polymers and advanced polymeric based nanocomposites

Laura Peponi<sup>b,\*</sup>, Debora Puglia<sup>a</sup>, Luigi Torre<sup>a</sup>, Luca Valentini<sup>a</sup>, José M. Kenny<sup>a,b,c,\*</sup>

<sup>a</sup>Materials Science and Technology Centre, University of Perugia, Loc. Pentima, 4, 05100 Terni, Italy

<sup>b</sup>Institute of Polymer Science and Technology, ICTP-CSIC, Juan de la Cierva, 3, 28006 Madrid, Spain

<sup>c</sup>Institute of Macromolecular Compounds of the Russian Academy of Sciences, Bolshoy pr. 31, 199004 Saint-Petersburg, Russia

## Contents

---

1. Introduction .....	2
1.1. Top-down and bottom-up processing of polymer nanocomposites .....	2
1.2. Classification and properties of main nanoparticles .....	3
1.2.1. Nanoclays .....	3
1.2.2. Metal and ceramic nanoparticles .....	5
1.2.3. Carbon nanotubes .....	6
1.2.4. Graphene .....	7
1.2.5. Nanocellulose .....	7
1.3. Functionalization of nanoparticles .....	9
1.3.1. Covalent functionalization .....	9
1.3.2. Non covalent functionalization .....	11
2. Bottom-up nanostructuring .....	12
2.1. Nanostructured copolymers and their nanocomposites .....	13
2.1.1. Block copolymer thin films .....	15

---

2.1.2. Nanostructured block copolymers in solution .....	15
2.1.3. Nanocomposites based on BC .....	16
2.2. Nanostructured thermoplastics and blends .....	20
2.3. Nanostructured thermosets and blends .....	21
3. Top-down processing of thermosetting matrix nanocomposites .....	23
3.1. Dispersion of nanoparticles in thermosetting polymers .....	23
3.1.1. Dispersion of nanoclays in thermosetting matrices .....	23
3.1.2. Dispersion of carbon nanotubes in thermosetting matrices .....	23
3.1.3. Dispersion of graphenes, direct exfoliation and chemical reduction of graphite oxide in thermosetting matrices. ....	24
3.1.4. Dispersion of nanocellulose in thermosetting matrices .....	24
3.2. Properties and applications of thermosetting matrix nanocomposites.....	25
3.2.1. Mechanical and electrical properties .....	25
3.2.2. Thermal properties.....	28
4. Top-down processing of thermoplastic matrix nanocomposites .....	29
4.1. Dispersion of nanoparticles in matrices .....	29
4.1.1. Dispersion of nanoclays in thermoplastic matrices .....	29
4.1.2. Dispersion of carbon nanotubes in thermoplastic matrices.....	30
4.1.3. Dispersion of graphenes, direct exfoliation and chemical reduction of graphite oxide in thermoplastic matrices.....	30
4.1.4. Dispersion of nanocellulose in thermoplastic polymers.....	31
4.2. Properties and applications of thermoplastic matrix nanocomposites.....	32
4.2.1. Processing of thermoplastic matrix nanocomposites.....	32
4.2.2. Main properties and applications of thermoplastic matrix nanocomposites .....	32
5. Processing of advanced composites with nanostructured matrices.....	34
6. Summary and perspectives .....	37
Acknowledgements .....	38
