MARCH 2013 | VOLUME 16 | NUMBER 3

Small scale, big ideas
At the nano and submicron domains

G. U. Nienhaus considers
fluorescent nanoparticles

What makes the
perfect conference?

T. Langdon looks at
ultrafine-grained materials

March 2013

User rights

Articles published in this journal are made freely available on Elsevier's publishing platforms including SciVerse ScienceDirect. Articles are protected by copyright and may be used for non-commercial purposes. Users may access, download, copy, display, redistribute, adapt, translate, text mine and data mine the articles provided that:

- They cite the article using an appropriate bibliographic citation (i.e. author(s), journal, article title, volume, issue, page numbers, DOI and the link to the definitive published version on ScienceDirect).
- They maintain the integrity of the article.
- They retain copyright notices and links to these terms and conditions so it is clear to other users what can and cannot be done with the article.
- They ensure that, for any content in the article that is identified as belonging to a third party, any re-use complies with the copyright policies of that third party.
- Any translations, for which a prior translation agreement with Elsevier has not been established, must prominently display the statement: "This is an unofficial translation of an article that appeared in an Elsevier publication. Elsevier has not endorsed this translation."

Use of published articles for commercial purposes is prohibited without permission. For permission to use published articles beyond the uses permitted here, visit www.elsevier.com/permissions.
