DECEMBER 2013 | VOLUME 16 | NUMBER 12

Next generation materials
Real problems, real solutions

Sang Ouk Kim look at next generation nanolithography

Jaephil Cho discusses Li-ion battery cathodes

Susmita Bose on medical uses of 3D printing

ELSEVIER

December 2013

Volume 16 Number 12

pp. 457–508

User rights

Articles published in this journal are made freely available on Elsevier's publishing platforms including ScienceDirect. Articles are protected by copyright and may be used for non-commercial purposes. Users may access, download, copy, display, redistribute, adapt, translate, text mine and data mine the articles provided that:

- They cite the article using an appropriate bibliographic citation (i.e. author(s), journal, article title, volume, issue, page numbers, DOI and the link to the definitive published version on ScienceDirect).
- They maintain the integrity of the article.
- They retain copyright notices and links to these terms and conditions so it is clear to other users what can and cannot be done with the article.
- They ensure that, for any content in the article that is identified as belonging to a third party, any re-use complies with the copyright policies of that third party.
- Any translations, for which a prior translation agreement with Elsevier has not been established, must prominently display the statement: "This is an unofficial translation of an article that appeared in an Elsevier publication. Elsevier has not endorsed this translation."

Use of published articles for commercial purposes is prohibited without permission. For permission to use published articles beyond the uses permitted here, visit www.elsevier.com/permissions.

Annual subscription price in the USA US\$325 (valid in North, Central and South America), including air speed delivery. Periodical postage paid at Rahway NJ and additional mailing off ces.
