FULL LENGTH PAPERS

Totally unimodular stochastic programs

N. Kong · A.J. Schaefer · S. Ahmed 1

Simulation-based confidence bounds for two-stage stochastic programs

P.W. Glynn · G. Infanger 15

Polyhedron of triangle-free simple 2-matchings in subcubic graphs

D. Hartvigsen · Y. Li 43

An interior point method in function space for the efficient solution of state constrained optimal control problems

A. Schiela 83

Iteration-complexity of first-order penalty methods for convex programming

G. Lan · R.D.C. Monteiro 115

Fine tuning Nesterov's steepest descent algorithm for differentiable convex programming

C.C. Gonzaga · E.W. Karas 141

Risk-averse feasible policies for large-scale multistage stochastic linear programs

V. Guigues · C. Sagastizábal 167

Stochastic binary problems with simple penalties for capacity constraints violations

B. Fortz · M. Labbé · F. Louveaux · M. Poss 199

Regularization methods for optimization problems with probabilistic constraints

D. Dentcheva · G. Martinez 223

A hierarchy of bounds for stochastic mixed-integer programs

B. Sandıkçı · N. Kong · A.J. Schaefer 253

(Contents continued on back cover)

Comprehensively covered by
ACM Computing Reviews,
Mathematical Reviews and
Zentrblatt MATH

Springer

(Contents continued)

Cyclic group blocking polyhedra

S. Shim · E.L. Johnson 273

Solving bilevel programs with the KKT-approach

G.B. Allende · G. Still 309

Enclosing ellipsoids and elliptic cylinders of semialgebraic sets and their application to error bounds in polynomial optimization

M. Kojima · M. Yamashita 333

Copositivity detection by difference-of-convex decomposition and ω -subdivision

I.M. Bomze · G. Eichfelder 365

The matricial relaxation of a linear matrix inequality

J.W. Helton · I. Klep · S. McCullough 401

The bilevel programming problem: reformulations, constraint qualifications and optimality conditions

S. Dempe · A.B. Zemkoho 447

Beyond symmetric Broyden for updating quadratic models in minimization without derivatives

M.J.D. Powell 475

A perfect example for the BFGS method

Y.-H. Dai 501

Explicit convex and concave envelopes through polyhedral subdivisions

M. Tawarmalani · J.-P.P. Richard · C. Xiong 531

Newton iterations in implicit time-stepping scheme for differential linear complementarity systems

X. Chen · S. Xiang 579
