Volume 147 · Numbers 1–2 · October 2014

FULL LENGTH PAPERS

An efficient polynomial time approximation scheme for load balancing on uniformly related machines

L. Epstein · A. Levin 1

A first order method for finding minimal norm-like solutions of convex optimization problems

A. Beck · S. Sabach 25

Geometric measures of convex sets and bounds on problem sensitivity and robustness for conic linear optimization

J.R. Vera 47

Tree metrics and edge-disjoint S -paths

H. Hirai · G. Pap 81

Iterative hard thresholding methods for l_0 regularized convex cone programming

Z. Lu 125

On the bilinearity rank of a proper cone and Lyapunov-like transformations

M.S. Gowda · J. Tao 155

Trust-region problems with linear inequality constraints: exact SDP relaxation, global optimality and robust optimization

V. Jeyakumar · G.Y. Li 171

A simple randomised algorithm for convex optimisation · Application to two-stage stochastic programming

M. Dyer · R. Kannan · L. Stougie 207

(Contents continued on back cover)

Comprehensively covered by
ACM Computing Reviews,
Mathematical Reviews and
Zentrablatt MATH

Springer

(Contents continued)

Network congestion control with Markovian multipath routing

R. Cominetti · C. Guzmán 231

The divergence of the BFGS and Gauss Newton methods

W.F. Mascarenhas 253

Iterative reweighted minimization methods for l_p regularized unconstrained nonlinear programming

Z. Lu 277

The Hirsch Conjecture for the fractional stable set polytope

C. Michini · A. Sassano 309

The numerical solution of Newton's problem of least resistance

G. Wachsmuth 331

Computing the nearest Euclidean distance matrix with low embedding dimensions

H.-D. Qi · X. Yuan 351

Threshold Boolean form for joint probabilistic constraints with random technology matrix

A. Kogan · M.A. Lejeune 391

Guaranteed clustering and biclustering via semidefinite programming

B.P.W. Ames 429

Optimality, identifiability, and sensitivity

D. Drusvyatskiy · A.S. Lewis 467

On matching cover of graphs

X. Wang · X. Song · J. Yuan 499

A Frank–Wolfe type theorem for nondegenerate polynomial programs

S.T. Dinh · H.V. Ha · T.S. Pham 519

First order optimality conditions for mathematical programs with semidefinite cone complementarity constraints

C. Ding · D. Sun · J.J. Ye 539

SHORT COMMUNICATION

Strongly regular nonsmooth generalized equations

A.F. Izmailov 581
