

# Memoirs on Differential Equations and Mathematical Physics

Table of Contents: Volume 61, 2014

---

## **Revaz Bantsuri**

Mem. Differential Equations Math. Phys. **61** (2014), pp. 1-3.

## **Tatiyana Barinova and Alexander Kostin**

*Sufficiency Conditions for Asymptotic Stability of Solutions of a Linear Homogeneous Nonautonomous Differential Equation of Second Order*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 5-20.

## **Mouffak Benchohra and Sara Litimein**

*Functional Integro-Differential Equations with State-Dependent Delay in Fréchet Spaces*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 21-36.

## **V. M. Evtukhov and A. M. Klopot**

*Asymptotic Behavior of Solutions of Ordinary Differential Equations of  $n$ -th Order with Regularly Varying Nonlinearities*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 37-61.

## **L. Giorgashvili, M. Kharashvili, K. Skhvitardze, and E. Elerdashvili**

*Boundary Value Problems of the Theory of Thermoelasticity with Microtemperatures for Domains Bounded by a Spherical Surface*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 63-82.

## **Chengjun Guo, Ravi P. Agarwal, Chengjiang Wang, and Donal O'Regan**

*The Existence of Homoclinic Orbits for a Class of First-Order Superquadratic Hamiltonian Systems*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 83-102.

## **Vakhtang Paatashvili**

*The Riemann Problem and Linear Singular Integral Equations with Measurable Coefficients in Lebesgue Type Spaces with a Variable Exponent*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 103-145.

## **SHORT COMMUNICATION**

### **Malkhaz Ashordia**

*On The Well-Possedness Of General Nonlinear Boundary Value Problems for Systems of Impulsive Equations with Finite and Fixed Points of Impulses*  
Mem. Differential Equations Math. Phys. **61** (2014), pp. 147-159.
