

Brief Review

Yang–Mills gauge theory and the Higgs boson family

Ngee-Pong Chang

1630006

Research Papers

New upper limits of a braneworld model with recent Solar System tests

Xue-Mei Deng, Yi Xie

1650021

Effect of coordinate noncommutativity on the mass of a particle in a uniform field and the equivalence principle

Kh. P. Gnatenko, V. M. Tkachuk

1650026

A systematic study of proton, alpha and cluster decays in Rhenium isotopes using the effective liquid drop model

Deepthy Maria Joseph, Nithu Ashok, Antony Joseph

1650031

Semiclassical approach for the evaporating black hole revisited

Yongwan Gim, Wontae Kim

1650033

The atmosphere of a black hole

Metin Arik, Yorgo Senikoglu

1650034

Structure of $XbXb$ from line shape analysis

Yue Ma, Guo-Ying Chen

1650035

Weak-field general relativistic dynamics and the Newtonian limit

F. I. Cooperstock

1650037
