## **Brief Review**

### **Extracting $\alpha_s$ s from scaling violations in light-hadron fragmentation functions**

*Bernd A. Kniehl*

1630008

## **Research Papers**

### **Two-dimensional noncommutative quantum mechanics with the central potential**

*Won Sang Chung*

1650046

### **Rarita–Schwinger massless field in covariant and Coulomb-like gauges**

*E. B. Manoukian*

1650047

### **Quark ACM with topologically generated gluon mass**

*Ishita Dutta Choudhury, Amitabha Lahiri*

1650048

### **The phase-functions method and full cross-section of nucleon–nucleon scattering**

*V. I. Zhaba*

1650049

### **Temperature variation in the dark cosmic fluid in the late universe**

*Iver Brevik*

1650050

### **Hadron diffractive scattering at ultrahigh energies and Coulomb interaction**

*V. V. Anisovich, V. A. Nikonov*
