COMMENTARY

<i>Drosophila</i> SETs Its Sights on Cancer: Trr/MLL3/4 COMPASS-Like Complexes in Development and Disease	Marc Alard Morgan, Ali Shilatifard	1698–1701
---	------------------------------------	-----------

ARTICLES

The <i>Drosophila</i> Ortholog of <i>MLL3</i> and <i>MLL4</i> , <i>trithorax related</i> , Functions as a Negative Regulator of Tissue Growth	Hiroshi Kanda, Alexander Nguyen, Leslie Chen, Hideyuki Okano, Iswar K. Hariharan	1702–1710
Ligand-Induced Repression of the Glucocorticoid Receptor Gene Is Mediated by an NCoR1 Repression Complex Formed by Long-Range Chromatin Interactions with Intragenic Glucocorticoid Response Elements	Sivapriya Ramamoorthy, John A. Cidlowski	1711–1722
Distinct Chromatin Configurations Regulate the Initiation and the Maintenance of <i>hGH</i> Gene Expression	Yugong Ho, Brian M. Shewchuk, Stephen A. Liebhaber, Nancy E. Cooke	1723–1734
DOT1L-Mediated H3K79 Methylation in Chromatin Is Dispensable for Wnt Pathway-Specific and Other Intestinal Epithelial Functions	Li-Lun Ho, Amit Sinha, Michael Verzi, Kathrin M. Bernt, Scott A. Armstrong, Ramesh A. Shivdasani	1735–1745
A Weak Spliceosome-Binding Domain of Yju2 Functions in the First Step and Bypasses Prp16 in the Second Step of Splicing	Ting-Wei Chiang, Soo-Chen Cheng	1746–1755
Rtp1p Is a Karyopherin-Like Protein Required for RNA Polymerase II Biogenesis	Natalia Gómez-Navarro, Lorena Peiró-Chova, Susana Rodriguez-Navarro, Julio Polaina, Francisco Estruch	1756–1767
The BCL11A Transcription Factor Directly Activates RAG Gene Expression and V(D)J Recombination	Baeck-seung Lee, Joseph D. Dekker, Bum-kyu Lee, Vishwanath R. Iyer, Barry P. Sleckman, Arthur L. Shaffer III, Gregory C. Ippolito, Philip W. Tucker	1768–1781
The c-Myc-Regulated MicroRNA-17~92 (miR-17~92) and miR-106a~363 Clusters Target hCYP19A1 and hGCM1 To Inhibit Human Trophoblast Differentiation	Premlata Kumar, Yanmin Luo, Carmen Tudela, James M. Alexander, Carole R. Mendelson	1782–1796
Fyn Regulates Adipogenesis by Promoting PIKE-A/STAT5a Interaction	Margaret Chui Ling Tse, Xia Liu, Seran Yang, Keqiang Ye, Chi Bun Chan	1797–1808
The Complex Containing <i>Drosophila</i> Myb and RB/E2F2 Regulates Cytokinesis in a Histone H2Av-Dependent Manner	Heather DeBruhl, Hong Wen, Joseph S. Lipsick	1809–1818
BRG1 Is Required for Formation of Senescence-Associated Heterochromatin Foci Induced by Oncogenic RAS or BRCA1 Loss	Zhigang Tu, Xinying Zhuang, Yong-Gang Yao, Rugang Zhang	1819–1829
ATM- and ATR-Mediated Phosphorylation of XRCC3 Regulates DNA Double-Strand Break-Induced Checkpoint Activation and Repair	Kumar Somyajit, Shivakumar Basavaraju, Ralph Scully, Ganesh Nagaraju	1830–1844

**Developmentally Programmed 3' CpG Island Methylation
Confers Tissue- and Cell-Type-Specific Transcriptional
Activation**

Da-Hai Yu, Carol Ware, Robert A. Waterland, Jiexin Zhang, Miao-Hsueh Chen, Manasi Gadkari, Govindarajan Kunde-Ramamoorthy, Lagina M. Nosavanh, Lanlan Shen 1845–1858

**The Differential Effects of Wild-Type and Mutated K-Ras on
MST2 Signaling Are Determined by K-Ras Activation Kinetics**

David Romano, Helene Maccario, Carolanne Doherty, Niall P. Quinn, Walter Kolch, David Matallanas 1859–1868

**Acyl Coenzyme A Thioesterase 7 Regulates Neuronal Fatty Acid
Metabolism To Prevent Neurotoxicity**

Jessica M. Ellis, G. William Wong, Michael J. Wolfgang 1869–1882
