18 articles in this issue

Difficulties in the In-Life Diagnosis of Creutzfeldt–Jakob Disease

O. A. Kicheroval. I. ReikhertV. M. Alifirova

Review | 19 June 2025 | Pages: 667 - 674

Natural History of Spinal Muscular Atrophy Type I

D. V. VlodavetsYu. N. LinkovaA. N. Nikiforova

Review | 19 June 2025 | Pages: 675 - 680

The Role of Immunoinflammatory Factors in the Development of Negative Symptoms in Schizophrenia

A. A. MoritzP. S. TerebovaM. V. Ivanov

Review | 19 June 2025 | Pages: 681 - 687

The Role of Transcription Factors in Pathogenic Processes Associated with Schizophrenia

D. S. KarpovE. V. MarilovtsevaV. E. Golimbet

Review | 19 June 2025 | Pages: 688 - 692

Neurochemical Mechanisms of Tremor in Parkinson's Disease

I. A. PutyatinN. V. Titova

Review | 19 June 2025 | Pages: 693 - 701

Cognitive Impairment in Patients with Parkinson's Disease

E. A. KatuninaA. V. ParusovaN. V. Zavadtseva

Review | 19 June 2025 | Pages: 702 - 711

Chronic Epidural Spinal Cord Stimulation for Correction of Gait Impairments in Patients with Parkinson's Disease and Atypical Parkinsonism

V. V. KovalevE. V. BrilN. A. Suponeva

Review | 19 June 2025 | Pages: 712 - 721

Comorbidity of Depression and Dementia: Epidemiological, Biological, and Therapeutic Aspects

N. N. Petrova

Review | 19 June 2025 | Pages: 722 - 730

Molecular Genetic Causes of Epilepsy in Children

K. R. YaninO. I. GumeniukT. A. Yanina

Original Research | 19 June 2025 | Pages: 731 - 735

Psychopathological Disorders at the Onset of Juvenile Parkinsonism in Childhood

A. V. GoryunovaYu. S. ShevchenkoA. O. Ermakov

Original Research | 19 June 2025 | Pages: 736 - 742

A Cognitive Test for "Permanence." A Modified Version for Rats

A. G. KorolevP. D. Ogourtsovl. I. Poletaeva

Original Research | 19 June 2025 | Pages: 743 - 746

Modern Approaches to Cochlear Implantation in Inner Ear Malformations: Audiological Aspects

N. T. TunyanV. E. KuzovkovE. V. Bychkova

Review | 19 June 2025 | Pages: 747 - 753

The Role of the Envelope in the Discrimination of Rippled Spectra by Listeners with Different Auditory Sensitivity

D. I. NechaevO. N. MilekhinaA. Ya. Supin

Original Research | 19 June 2025 | Pages: 754 - 763

Influence of the Acoustic Background on the Selection of Visual Stimuli by Children of Early Preschool Age

T. G. KuznetsovaM. L. StruzhkinE. A. Ogorodnikova

Original Research | 19 June 2025 | Pages: 764 - 769

Temporal Characteristics of Speech in Patients with Grade III Postlingual Sensorineural Hearing Loss without the Use of Hearing Aids and with Hearing Prosthetics

K. S. ArutiunianL. E. GolovanovaI. G. Andreeva

Original Research | 19 June 2025 | Pages: 770 - 776

The Role of Auditory Critical Bands in Stimulus-Specific Adaptation in the Spike Activity of Primary Auditory Cortex Neurons in Awake Mice

M. A. EgorovaA. G. AkimovG. D. Khorunzhii

Original Research | 19 June 2025 | Pages: 777 - 781

Nicotinamide-Streptozotocin-Induced Type 2 Diabetes Mellitus Results in Derangement of the Primary Olfactory System in Male Wistar Rats

A. V. GorskayaO. V. ChistyakovaD. S. Vasiliev

Original Research | 19 June 2025 | Pages: 782 - 787

Three-Dimensional Object Detection Based on an L-Shape Model in Autonomous Motion Systems

M. O. ChekanovS. V. KudriashovaO. S. Shipitko

Original Research | 19 June 2025 | Pages: 788 - 796
