CONCEPTS, REVIEWS AND SYNTHESSES

Mistletoe specialist frugivores: latterday 'Johnny Appleseeds' or self-serving market gardeners?

D.M. Watson · J. Rawsthorne 925

VIEWS AND COMMENTS

How does elevated grassland productivity influence populations of root hemiparasites? Commentary on Borowicz and Armstrong (Oecologia 2012)

J. Těšitel · M. Hejcman · J. Lepš · D.D. Cameron 933

PHYSIOLOGICAL ECOLOGY

It is risky out there: the costs of emergence and the benefits of prolonged dormancy

J.R. Gremer · A. Sala 937

Concentrative nitrogen allocation to sun-lit branches and the effects on whole-plant growth under heterogeneous light environments

D. Sugiura · M. Tateno 949

Are lianas more drought-tolerant than trees? A test for the role of hydraulic architecture and other stem and leaf traits

M.T. van der Sande · L. Poorter · S.A. Schnitzer · L. Markesteijn 961

Recurrent violations of invariant rules for offspring size: evidence from turtles and the implications for small clutch size models

N. Rollinson · C.B. Edge · R.J. Brooks 973

BEHAVIORAL ECOLOGY

Physiological costs enforce the honesty of lek display in the black grouse (*Tetrao tetrix*)

C. Lebigre · R.V. Alatalo · H. Siitari 983

POPULATION ECOLOGY

Reproductive success and failure: the role of winter body mass in reproductive allocation in Norwegian moose

J.M. Milner · F.M. van Beest · E.J. Solberg · T. Storaas 995

The effect of snow cover on lemming population cycles in the Canadian High Arctic

F. Bilodeau · G. Gauthier · D. Berteaux 1007

Spatial structuring of an evolving life-history strategy under altered environmental conditions

J.C. Hegg · B.P. Kennedy · P.M. Chittaro · R.W. Zabel 1017

Food use is affected by the experience of nest predation: implications for indirect predator effects on clutch size

L.Y. Zanette · K.A. Hobson · M. Clinchy · M. Travers · T.D. Williams 1031

PLANT-ANIMAL INTERACTIONS

Plant secondary compounds as complementary resources: are they always complementary?

G. Copani · J.O. Hall · J. Miller · A. Priolo · J.J. Villalba 1041

Glandular trichomes as an inflorescence defence mechanism against insect herbivores in Iberian columbines

R. Jaime · P.J. Rey · J.M. Alcántara · J.M. Bastida 1051

Indirect competition for pollinators is weak compared to direct resource competition: pollination and performance in the face of an invader

J.D. Palladini · J.L. Maron 1061

Geographic variation in feeding preference of a generalist herbivore: the importance of seaweed chemical defenses

A.T. McCarty · E.E. Sotka 1071

(Contents continued on inside back cover)

Contents continued

Termites facilitate and ungulates limit savanna tree regeneration

O.-G. Støen · P. Okullo · T. Eid · S.R. Moe 1085

Drought alters interactions between root and foliar herbivores

M. Tariq · J.T. Rossiter · D.J. Wright · J.T. Staley 1095

COMMUNITY ECOLOGY

The β -richness of two detritivore caddisflies affects fine organic matter export

C.J. Patrick · D.H. Fernandez 1105

Effects of experimental rainfall manipulations on Chihuahuan Desert grassland and shrubland plant communities

S. Báez · S.L. Collins · W.T. Pockman · J.E. Johnson · E.E. Small 1117

The effect of chronic seaweed subsidies on herbivory: plant-mediated fertilization pathway overshadows lizard-mediated predator pathways

J. Piovita-Scott · D.A. Spiller · G. Takimoto · L.H. Yang · A.N. Wright · T.W. Schoener 1129

Effects of community- and neighborhood-scale spatial patterns on semi-arid perennial grassland community dynamics

A.P. Rayburn · E.W. Schupp 1137

Historic land use influences contemporary establishment of invasive plant species

W.B. Mattingly · J.L. Orrock 1147

Intra-guild interactions and projected impact of climate and land use changes on North American pochard ducks

G. Péron · D.N. Koons 1159

Herbivore species richness, composition and community structure mediate predator richness effects and top-down control of herbivore biomass

A. Wilby · K.H. Orwin 1167

ECOSYSTEM ECOLOGY

Ectomycorrhizal fungal community assembly on regenerating Douglas-fir after wildfire and clearcut harvesting

J.S. Barker · S.W. Simard · M.D. Jones · D.M. Durall 1179

GLOBAL CHANGE ECOLOGY

Tracing alpha, beta, and gamma diversity responses to environmental change in boreal lakes

D.G. Angeler · S. Drakare 1191

Enemy release promotes range expansion in a host plant

P. Lakeman-Fraser · R.M. Ewers 1203

Local effects of a global problem: modelling the risk of parasite-induced mortality in an intertidal trematode–amphipod system

A. Studer · R. Poulin · D.M. Tompkins 1213
