Oecologia

Volume 173, Issue 2, October 2013

1. **Methods**
Plant production and alternate prey channels impact the abundance of top predators
Ali Arab, Gina M. WimpPages 331-341
2. **Physiological ecology - Original research**
Integrating environmental variation, predation pressure, phenotypic plasticity and locomotor performance
Shi-Jian Fu, Zhen-Dong Cao, Guan-Jie Yan, Cheng Fu, Xu PangPages 343-354
3. **Physiological ecology - Original research**
Effects of food supplementation on a tropical bird
Alexandra M. Class, Ignacio T. MoorePages 355-362
4. **Physiological ecology - Original research**
Functional morphology underlies performance differences among invasive and non-invasive ruderal *Rubus* species
Joshua S. Caplan, J. Alan YeakleyPages 363-374
5. **Physiological ecology - Original research**
Photosynthetic benefits of ultraviolet-A to *Pimelea ligustrina*, a woody shrub of sub-alpine Australia
Tarryn L. Turnbull, Alexandra M. Barlow, Mark A. AdamsPages 375-385
6. **Behavioral ecology - Original research**
Female blue tits with brighter yellow chests transfer more carotenoids to their eggs after an immune challenge
Afiwa Midamegbe, Arnaud Grégoire, Vincent Staszewski, Philippe Perret...Pages 387-397
7. **Behavioral ecology - Original research**
Colour also matters for nocturnal birds: owl bill coloration advertises quality and influences parental feeding behaviour in little owls
J. M. Avilés, D. ParejoPages 399-408
8. **Behavioral ecology - Original research**
Temporal variation in site fidelity: scale-dependent effects of forage abundance and predation risk in a non-migratory large herbivore
F. M. van Beest, E. Vander Wal, A. V. Stronen, P. C. Paquet, R. K. BrookPages 409-420
9. **Population ecology - Original research**
Clinal variation for only some phenological traits across a species range
Holly R. Prendeville, Karen Barnard-Kubow, Can Dai, Brian C. Barringer...Pages 421-430
10. **Population ecology - Original research**
Effects of delayed settlement on post-settlement growth and survival of scleractinian coral larvae
Erin M. Graham, Andrew H. Baird, Bette L. Willis, Sean R. ConnollyPages 431-438
11. **Population ecology - Original research**
Life history traits in a cyclic ecosystem: a field experiment on the arctic fox
Tomas Meijer, Bodil Elmhagen, Nina E. Eide, Anders AngerbjörnPages 439-447
12. **Plant-animal Interactions - Original Research**
Intraspecific variation overrides origin effects in impacts of litter-derived secondary compounds on larval amphibians
Laura J. Martin, Bernd BlosseyPages 449-459
13. **Plant-animal interactions - Original research**

- Increasing land-use intensity decreases floral colour diversity of plant communities in temperate grasslands**
Julia Binkenstein, Julien P. Renoult, H. Martin SchaeferPages 461-471
14. **Plant-animal interactions - Original research**
Attracting pollinators and avoiding herbivores: insects influence plant traits within and across years
Amanda Lynn Buchanan, Nora UnderwoodPages 473-482
15. **Plant-animal interactions - Original research**
What makes a good neighborhood? Interaction of spatial scale and fruit density in the predator satiation dynamics of a masting juniper tree
Eduardo T. Mezquida, José Miguel OlanoPages 483-492
16. **Plant-animal interactions - Original research**
Does time since introduction influence enemy release of an invasive weed?
Kerinne J. Harvey, David A. Nipperess, David R. Britton, Lesley HughesPages 493-506
17. **Plant-animal interactions - Original research**
Leaf litter quality affects aquatic insect emergence: contrasting patterns from two foundation trees
Zacchaeus G. Compson, Kenneth J. Adams, Joeseeph A. Edwards, Jesse M. Maestas...Pages 507-519
18. **Community ecology - Original research**
Parasitism rate, parasitoid community composition and host specificity on exposed and semi-concealed caterpillars from a tropical rainforest
Jan Hreck, Scott E. Miller, James B. Whitfield, Hiroshi Shima, Vojtech NovotnyPages 521-532
19. **Community Ecology - Original Research**
Characterization of arbuscular mycorrhizal fungal communities with respect to zonal vegetation in a coastal dune ecosystem
Ai Kawahara, Tatsuhiro EzawaPages 533-543
20. **Community ecology - Original research**
A negative heterogeneity–diversity relationship found in experimental grassland communities
Antonio Gazol, Riin Tamme, Jodi N. Price, Inga Hiiesalu, Lauri Laanisto...Pages 545-555
21. **Community ecology - Original research**
Arrival order among native plant functional groups does not affect invasibility of constructed dune communities
T. J. Mason, K. French, D. JolleyPages 557-568
22. **Community ecology - Original research**
Testing heterogeneity–diversity relationships in tropical forest restoration
Karen D. Holl, Victoria M. Stout, J. Leighton Reid, Rakan A. ZahawiPages 569-578
23. **Community ecology - Original research**
Management intensity and vegetation complexity affect web-building spiders and their prey
Eva Diehl, Viktoria L. Mader, Volkmar Wolters, Klaus BirkhoferPages 579-589
24. **Community ecology - Original research**
Herbivory and drought interact to enhance spatial patterning and diversity in a savanna understory
Lauren M. Porensky, Sarah E. Wittman, Corinna Riginos, Truman P. YoungPages 591-602
25. **Community ecology - Original research**
Effects of wildfire, rainfall and region on desert lizard assemblages: the importance of multi-scale processes
Louise A. Pastro, Christopher R. Dickman, Mike LetnicPages 603-614
26. **Global change ecology - Original research**
Does background nitrogen deposition affect the response of boreal vegetation to fertilization?
P. O. Hedwall, A. Nordin, J. Strengbom, J. Brunet, B. OlssonPages 615-624
