MAY 2014

Editor's choice and Forum

Integrating ecosystem engineering and food webs

513 Dirk Sanders, Clive G. Jones, Elisa Thébault,
Tjeerd J. Bouma, Tjisse van der Heide,
Jim van Belzen and Sébastien Barot

Editor's choice and Research

Disentangling the effect of hybrid interactions and of the constant effort hypothesis on ecological community stability

525 Samir Suweis, Jacopo Grilli and Amos Maritan

Research

Multimodal species abundance distributions: a deconstruction approach reveals the processes behind the pattern

533 Thomas J. Matthews, Paulo A. V. Borges
and Robert J. Whittaker

Bottom-up regulates top-down: the effects of hybridization of grass endophytes on an aphid herbivore and its generalist predator

545 Susanna Saari, Scott Richter, Melissa Robbins
and Stanley H. Faeth

Evidence of mutualistic synzoochory between cryptogams and hummingbirds

553 Felipe Osorio-Zuñiga, Francisco E. Fontúrbel
and Håkan Rydin

Detection and evaluation of an early divergence problem in northern Fennoscandian tree-ring data

559 Lea Schneider, Jan Esper, Mauri Timonen and
Ulf Büntgen

Trait-mediated apparent competition in an intraguild predator-prey system

567 Aabir Banerji and Peter J. Morin

Guild-specific shifts in visitation rates of frugivores with habitat loss and plant invasion

575 Ingo Grass, Dana G. Berens and Nina Farwig

Food web modularity and biodiversity promote species persistence in polluted environments

583 Leslie Garay-Narváez, José D. Flores,
Matías Arim and Rodrigo Ramos-Jiliberto

Population fluctuations affect inference in ecological networks of multi-species interactions

589 Konstans Wells, Heike Feldhaar and
Robert B. O'Hara

Grazing response patterns indicate isolation of semi-natural European grasslands

599 Lina Weiss, Hans Pfestorf, Felix May, Katrin Körner,
Steffen Boch, Markus Fischer, Jörg Müller,
Daniel Prati, Stephanie A. Socher and Florian Jeltsch

Vector preference and host defense against infection interact to determine disease dynamics

613 Adam R. Zeilinger and Matthew P. Daugherty

Inter-patch movement in an experimental system: the effects of life history and the environment

623 Daniel O'Sullivan, Tim G. Benton and
Tom C. Cameron

Reciprocal causality between marine macroalgal diversity and productivity in an upwelling area

630 Marianna de O. Lanari and Ricardo Coutinho
