Editorial

Formalized synthesis opportunities for ecology: systematic reviews and meta-analyses

897 Christopher J. Lortie

Editor's choice

Metacommunity size influences aquatic community composition in a natural mesocosm landscape

903 Robin M. LeCraw, Diane S. Srivastava and Gustavo Q. Romero

Multitrophic diversity effects depend on consumer specialization and species-specific growth and grazing rates

912 Joanna Filip, Barbara Bauer, Helmut Hillebrand, Anna Beniermann, Ursula Gaedke and Stefanie D. Moorthi

Research

Inter-individual variability in dispersal behaviours impacts connectivity estimates

923 Stephen C. F. Palmer, Aurélie Coulon and Justin M. J. Travis

Temporal scales of density-dependent habitat selection in a large grazing herbivore

933 Anna W. Blix, Arle Mysterud, Leif Egil Loe and Gunnar Austrheim

Concurrent biotic interactions influence plant performance at their altitudinal distribution margins

943 Elina Kaarlejärvi and Johan Olofsson

Genetically based latitudinal variation in *Artemisia californica* secondary chemistry

953 Jessica D. Pratt, Ken Keefover-Ring, Lawrence Y. Liu and Kailen A. Mooney

Variation in tropical bird survival across longitude and guilds: a case study from the Amazon

964 Jared D. Wolfe, Philip C. Stouffer and Glenn F. Seeholzer

Habitat structure and body size distributions: cross-ecosystem comparison for taxa with determinate and indeterminate growth

971 Kirsty L. Nash, Craig R. Allen, Chris Barichiev, Magnus Nyström, Shana Sundstrom and Nicholas A. J. Graham

Inter- and intraspecific effects of body size on habitat use among sexually-dimorphic macropodids

984 Sarah Garnick, Julian Di Stefano, Mark A. Elgar and Graeme Coulson

Climatic effects and phenological mismatch in cuckoo–host interactions: a role for host phenotypic plasticity in laying date?

993 Jesús M. Avilés, Mercedes Molina-Morales and Juan Gabriel Martínez

Population-level consequences of risky dispersal

1003 Allison K. Shaw, Matti Jalasvuori and Hanna Kokko

Episodic outbreaks of small mammals influence predator community dynamics in an east African savanna ecosystem

1014 Andrea E. Byrom, Meggan E. Craft, Sarah M. Durant, Ally J. K. Nkwabi, Kristine Metzger, Katie Hampson, Simon A. R. Mduma, Guy J. Forrester, Wendy A. Ruscoe, Denne N. Reed, John Bukombe, John Mchetto and A. R. E. Sinclair
