Editor's Choice and Forum

Beyond species: why ecological interaction networks vary through space and time (pages 243–251)

Timothée Poisot, Daniel B. Stouffer and Dominique Gravel

Article first published online: 4 NOV 2014 | DOI: 10.1111/oik.01719

Editor's Choice and Meta analysis

Marine biodiversity and ecosystem functioning: what's known and what's next? (pages 252–265)

Lars Gamfeldt, Jonathan S. Lefcheck, Jarrett E. K. Byrnes, Bradley J. Cardinale, J. Emmett Duffy and John N. Griffin

Article first published online: 4 NOV 2014 | DOI: 10.1111/oik.01549

Meta analysis

Effects of insect attack to stems on plant survival, growth, reproduction and photosynthesis (pages 266–273)

Andrea E. A. Stephens and Mark Westoby

Article first published online: 16 OCT 2014 | DOI: 10.1111/oik.01809

Research

Population of origin and environment interact to determine oomycete infections in spotted salamander populations (pages 274–284)

Mark C. Urban, Louise A. Lewis, Karolina Fučíková and Alexis Cordone

Article first published online: 19 AUG 2014 | DOI: 10.1111/oik.01598

Coordination of aboveground and belowground responses to local-scale soil fertility differences between two contrasting Jamaican rain forest types (pages 285–297)

David A. Wardle, Peter J. Bellingham, Paul Kardol, Reiner Giesler and Edmund V. J. Tanner

Article first published online: 19 AUG 2014 | DOI: 10.1111/oik.01584

Impacts of alien plant invasion on native plant communities are mediated by functional identity of resident species, not resource availability (pages 298–306)

Ben Gooden and Kris French

Article first published online: 23 OCT 2014 | DOI: 10.1111/oik.01724

Markov models and network analysis reveal sex-specific differences in the space-use of a coastal apex predator (pages 307–318)

Kilian M. Stehfest, Toby A. Patterson, Adam Barnett and Jayson M. Semmens

Article first published online: 30 SEP 2014 | DOI: 10.1111/oik.01429

Individual-based modelling of resource competition to predict density-dependent population dynamics: a case study with white storks (pages 319–330)

Damaris Zurell, Ute Eggers, Michael Kaatz, Shay Rotics, Nir Sapir, Martin Wikelski, Ran Nathan and Florian Jeltsch

Article first published online: 19 AUG 2014 | DOI: 10.1111/oik.01294

Endozoochory by slugs can increase bryophyte establishment and species richness (pages 331–336)

Steffen Boch, Markus Fischer, Eva Knop and Eric Allan

Article first published online: 19 AUG 2014 | DOI: 10.1111/oik.01536

Relative roles of resource stimulus and vegetation architecture on the paths of flies foraging for fruit (pages 337–346)

Oriol Verdeny-Vilalta, Martín Aluja and Jérôme Casas

Article first published online: 28 AUG 2014 | DOI: 10.1111/oik.01557

The relative importance of color signaling for plant generalization in pollination networks (pages 347–354)

Julien P. Renoult, Nico Blüthgen, Julia Binkenstein, Christiane N. Weiner, Michael Werner and H. Martin Schaefer

Article first published online: 3 SEP 2014 | DOI: 10.1111/oik.01361

The effects of species properties and community context on establishment success (pages 355–363)

Sarah M. Gray, Daniel E. Dykhuizen and Dianna K. Padilla

Article first published online: 11 SEP 2014 | DOI: 10.1111/oik.01550

Geographical variation in echolocation vocalizations of the Himalayan leaf-nosed bat: contribution of morphological variation and cultural drift (pages 364–371)

Aiqing Lin, Tinglei Jiang, Jagmeet S. Kanwal, Guanjun Lu, Jinhong Luo, Xuewen Wei, Bo Luo and Jiang Feng

Article first published online: 5 SEP 2014 | DOI: 10.1111/oik.01604

Lack of costs associated with nest-related behaviors in an arachnid with exclusive paternal care (pages 372–380)

Gustavo S. Requena and Glauco Machado

Article first published online: 5 SEP 2014 | DOI: 10.1111/oik.01641

Water stress in grasslands: dynamic responses of plants and insect herbivores (pages 381–390)

Paul A. Lenhart, Micky D. Eubanks and Spencer T. Behmer

Article first published online: 25 SEP 2014 | DOI: 10.1111/oik.01370
