

21 articles in this issue

Effect of Inelastic Scattering on the Neutron Transmission by a Lead Single Crystal

P. P. Parshin, V. P. Glazkov & E. V. Dyuzheva–Maltseva

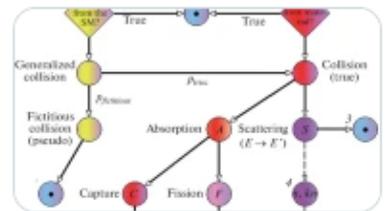

OriginalPaper | 13 February 2026 | Pages:1355 – 1361

Development and Implementation in the KIR Code of the Method for Accounting for the Continuity of Material Density Distribution

V. I. Belousov, M. I. Gurevich ... K. F. Raskach

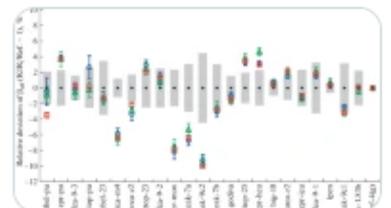

OriginalPaper | 13 February 2026 | Pages:1362 – 1368

Algorithms for Calculating Effective Parameters of the Point Kinetics Equation Based on the Monte Carlo Method, Their Verification, and Validation

V. I. Belousov, E. A. Gomin ... A. N. Pisarev

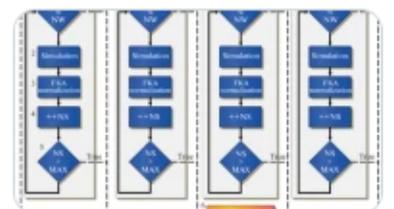

OriginalPaper | 13 February 2026 | Pages:1369 – 1380

Modification of the Frank–Kamenetsky Algorithm for Parallel Computing

V. I. Belousov, M. I. Gurevich ... K. G. Chernov

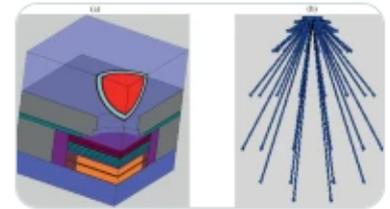

OriginalPaper | 13 February 2026 | Pages:1381 – 1392

On the Methodical Error of Calculation of the Jasper Radial Shield Experiment Based on DDL Schemes of the Discrete Ordinate Method for the Case of a Spherical Source

A. A. Nikolaev & A. Yu. Tarasov

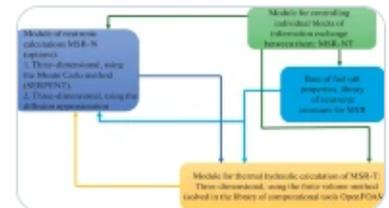

OriginalPaper | 13 February 2026 | Pages: 1393 – 1398

Multiphysics Analysis of Molten Salt Reactors

K. S. Kupriyanov, O. S. Feynberg & V. V. Ignatiev

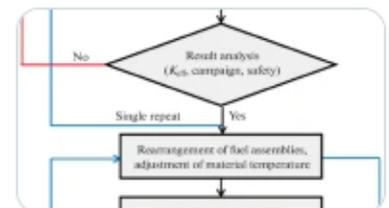

OriginalPaper | 13 February 2026 | Pages: 1399 – 1410

Simulation of Neutronic Characteristics of the HTGR Core during the Fuel Cycle Using the Precision Calculation Code MCU-HTR

A. N. Lepekhin, V. Yu. Galickih ... D. A. Shkarovskiy

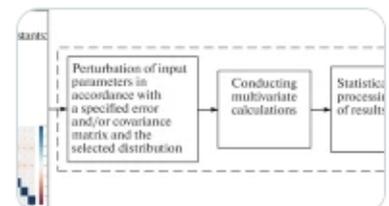

OriginalPaper | 13 February 2026 | Pages: 1411 – 1416

Evaluation of Uncertainty in Calculations of Isotopic Composition of the Uranium–Plutonium Nitride Fuel Samples Irradiated in BN-600

O. I. Potapova, A. A. Belov & O. N. Andrianova

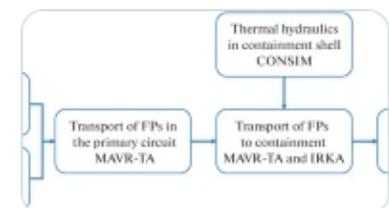

OriginalPaper | 13 February 2026 | Pages: 1417 – 1424

Development of a Package of Codes for Radiation Safety Analysis in Severe Accidents at NPPs with VVERs

Yu. B. Shmelkov, Yu. A. Zvonarev & Yu. M. Semchenkov

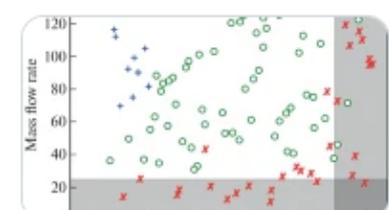

OriginalPaper | 13 February 2026 | Pages: 1425 – 1434

Numerical Study of the Efficiency of Reflooding the Heated Core of a VVER-1000 Reactor at the Beginning of a Beyond Design Basis Accident with a Large Break LOCA

I. S. Akhmedov, K. S. Dolganov ... A. E. Kiselev

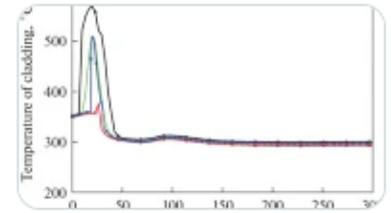

OriginalPaper | 13 February 2026 | Pages: 1435 – 1443

Sensitivity Analysis for beyond Design Basis Accidents of VVER-1200 Power Unit

M. V. Gamagin, D. S. Gordeev ... P. V. Yagov

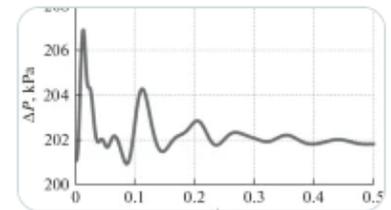

OriginalPaper | 13 February 2026 | Pages: 1444 - 1454

Analysis of Accidents with CPS CR Ejection at VVER Reactor Plants with Regard to Real Hydrodynamic Forces

G. A. Ryabov, A. L. Nikolaev ... N. A. Dar'in

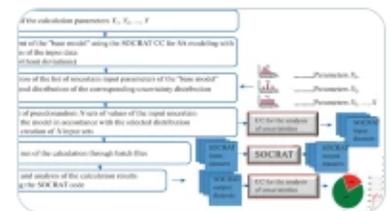

OriginalPaper | 13 February 2026 | Pages: 1455 - 1460

Features of Uncertainty Analysis for Probabilistic Safety Analysis

A. V. Nikolaeva, I. N. Gritsenko ... S. I. Pantyushin

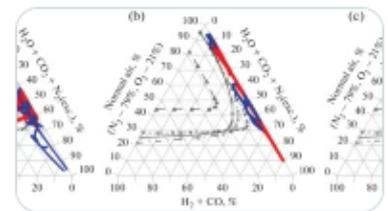

OriginalPaper | 13 February 2026 | Pages: 1461 - 1467

Criteria for Evaluating the Combustion Modes of Mixtures Containing H₂ and CO in NPP Containments: Part I. Flammability

T. A. Yudina, A. E. Kiselev ... Yu. A. Zvonarev

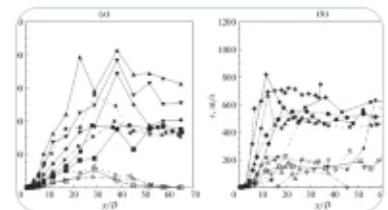

OriginalPaper | 13 February 2026 | Pages: 1468 - 1482

Criteria for Evaluating the Combustion Modes of Mixtures Containing H₂ and CO in NPP Containments: Part II. Flame Acceleration and Detonation

T. A. Yudina, A. E. Kiselev ... Yu. A. Zvonarev

OriginalPaper | 13 February 2026 | Pages: 1483 - 1502

Estimation of the Xenon Diffusion Coefficient in Uranium Dioxide Microfuel Kernels

M. A. Agulnik, N. S. Bezruk ... A. S. Ivanov

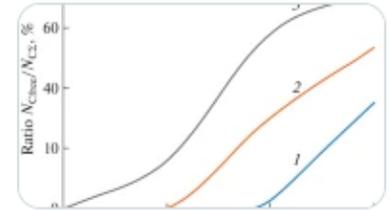

OriginalPaper | 13 February 2026 | Pages: 1503 - 1508

Silicon As an Effective Carbide Former in (U, Pu) N-Fuel Containing Carbon and Oxygen Impurities

A. S. Ivanov & V. A. Rusinkevich

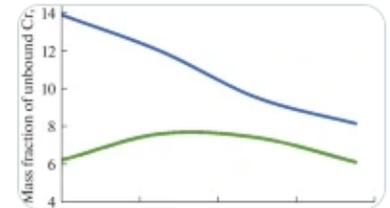

OriginalPaper | 13 February 2026 | Pages: 1509 - 1517

Some Features of Nitride Fuel Interaction with Fuel Rod Claddings of Austenitic and Ferritic-Martensitic Steel

V. A. Rusinkevich & A. S. Ivanov

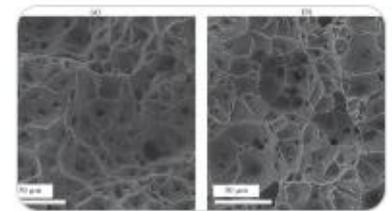

OriginalPaper | 13 February 2026 | Pages: 1518 - 1525

Evaluation of the Influence of Structural Parameters on the Long-Term Strength Characteristics of High-Nickel Steel for the Vessels of Promising VVER-Type Reactors

E. A. Kuleshova, I. V. Fedotov ... I. A. Ivanov

OriginalPaper | 13 February 2026 | Pages: 1526 - 1537

Features of Macro- and Microstructure of the Weld Metal of VVER Reactor Pressure Made Using Ceramic Flux in the Initial and Irradiated States

E. A. Kuleshova, E. D. Malinovskiy ... V. N. Skorobogatykh

OriginalPaper | 13 February 2026 | Pages: 1538 - 1553

Efficient Numerical and Analytical Method for Calculating Stress Intensity Factors at Boundary Crack Tips for Probabilistic Analysis of Equipment and Pipeline Failure

V. V. Matkovskiy & A. V. Andreev

OriginalPaper | 13 February 2026 | Pages: 1554 - 1561
