

Volume 51, Issue 3

March 2025

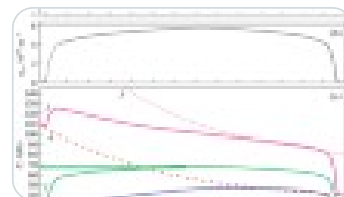

17 articles in this issue

Operational Range, Limitations, and the Expected Signal-to-Noise Ratio for the “Reflectometry for the Electron Density Profile Measurements” Diagnostics for the T-15MD Tokamak

D. A. ShelukhinV. A. VershkovA. A. Loginov

TOKAMAKS | 16 July 2025 | Pages: 231 - 253

Processes Determining the Energy Confinement in Tokamak Plasmas

K. A. RazumovaV. F. AndreevN. S. Sergeev

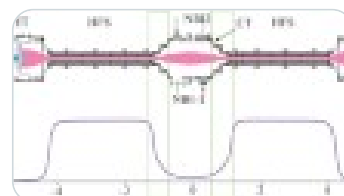

TOKAMAKS | 16 July 2025 | Pages: 254 - 265

Feasibility Study of Electron Cyclotron Resonance Heating in GOL-NB Device

E. D. GospodchikovO. B. SmolyakovaV. V. Postupaev

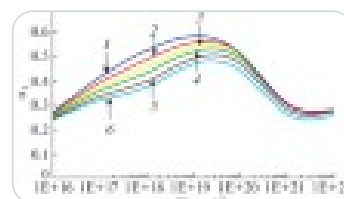

MAGNETIC TRAPS | 16 July 2025 | Pages: 266 - 281

Technique for Plasma Diagnostics Based on Resonance Lines of Ne-Like Kr XXVII Ion and Its Satellites

I. Yu. SkobelevR. K. KulikovS. N. Ryazantsev

PLASMA DIAGNOSTICS | 16 July 2025 | Pages: 282 - 288

Rotational Instability of the Axisymmetric Trivelpiece–Gould Modes in the Inhomogeneous Electron Beam

N. A. Marusov

PLASMA BEAMS | 16 July 2025 | Pages: 289 - 298

Steady States of a Diode with Relativistic Electron and Positron Beams

V. I. KuznetsovL. A. BakaleinikovE. Yu. Flegontova

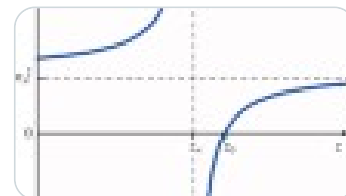

PLASMA ELECTRONICS | 16 July 2025 | Pages: 299 - 308

On One Peculiarity of the Ponderomotive Force Induced by an Ion-Cyclotron Wave in the Near-Earth Plasma

A. V. GuglielmiA. S. PotapovF. Z. Feygin

SPACE PLASMA | 16 July 2025 | Pages: 309 - 314

Coexistence of Compressive and Rarefactive Solitary Wave Structures in Magnetized Plasma with Kaniadakis Distributed Electrons and Stationary Charged Dust Grains

M. RahmanS. N. Barman

DUSTY PLASMA | 16 July 2025 | Pages: 315 - 327

Second-Order Multigroup Model for Calculating Low-Energy Electron Transport in Weakly Ionized Gases

E. I. Bochkov

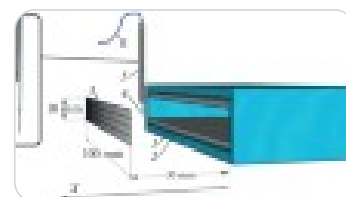

MOTION OF CHARGED PARTICLES | 16 July 2025 | Pages: 328 - 339

Simultaneous Local Probe and Optical Measurements in a Discharge with a Hollow Cathode

A. V. Bernatskiyl. I. DraganovV. N. Ochkin

LOW-TEMPERATURE PLASMA | 16 July 2025 | Pages: 340 - 349

Carbon Dioxide Reforming of Methane in a Glow Discharge at 50 Hz and Atmospheric Pressure

T. S. BatukaevYu. A. Lebedev

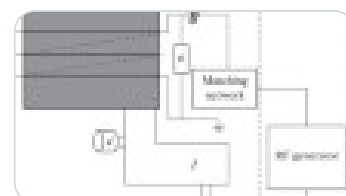

LOW-TEMPERATURE PLASMA | 16 July 2025 | Pages: 350 - 356

Comparison of Power Absorption Ability of Ar and O₂, N₂ Plasma of RF Inductive Discharge

G. ChenE. A. KralkinaZ. Wu

LOW-TEMPERATURE PLASMA | 16 July 2025 | Pages: 357 - 364

Radiation of a Short High-Current Vacuum Arc with Copper Electrodes

Yu. A. BarinovK. K. ZabelloS. M. Shkol'nik

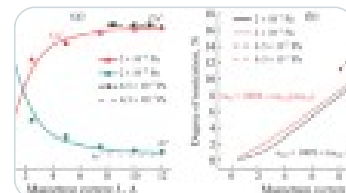

APPLIED PHYSICS | 16 July 2025 | Pages: 365 - 368

Ion Composition of Plasma of a Planar Magnetron in the Gaseous and Vacuum Modes of Operation

D. B. ZolotukhinM. V. ShandrikovG. Yu. Yushkov

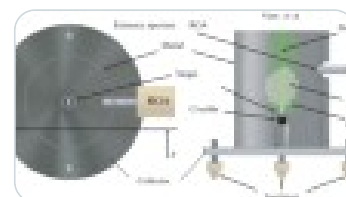

APPLIED PHYSICS | 16 July 2025 | Pages: 369 - 373

The Influence of the Working Gas Composition on the Mass-to-Charge Composition of Ions in the Beam Plasma during the Evaporation of an YSZ Target by an Electron Beam

A. V. TyunkovA. A. AndronovYu. G. Yushkov

APPLIED PHYSICS | 16 July 2025 | Pages: 374 - 378

Effect of the Electrode Immersion Depth on the Development of Pre-Breakdown Flows in Distilled Water

V. A. PanovA. S. SavelievYu. M. Kulikov

APPLIED PHYSICS | 16 July 2025 | Pages: 379 - 383

Radiation of Atoms and Ions of Metals in the Plasma-Chemical Process Initiated by the Radiation of a Powerful Pulsed Gyrotron in Mixtures of Magnesium and Titanium Oxide Powders

A. V. KnyazevA. A. LetunovN. N. Skvortsova

APPLIED PHYSICS | 16 July 2025 | Pages: 384 - 395
