5 articles in this issue

Mechanical Degradation of Polystyrene Foam by *Zophobas Morio* Larvae

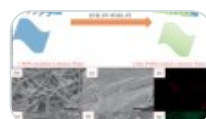

POLYMER DESTRUCTION | 26 September 2025 | Article: 5

Rheological Studies of Hydrogels Based on Low- and High-Methoxylated Pectins and Dihydrazides of Dicarboxylic Acids

POLYMER GELS | 26 September 2025 | Article: 4

Facile Fabrication of Polyhedral Oligomeric Silsesquioxane Block Bonded Cellulose Paper for Efficient Oil/Water Separation

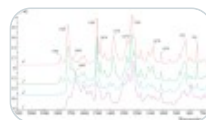

MODIFICATION OF POLYMERS | 26 September 2025 | Article: 3

Characterization and Application of Cellulose-Humic Acid-Based Composite Superabsorbent Hydrogel

FUNCTIONAL POLYMERS | 26 September 2025 | Article: 2

Novel Melt-Processible Copolyetherimides Based on 4,4'-Diaminodiphenylmethane: Synthesis and Study

SYNTHESIS | 26 September 2025 | Article: 1
