Russian Chemical Bulletin

Volume 74, Issue 10
October 2025

27 articles in this issue

Inorganic nano- and microparticles: methods for the preparation and possible applications in plant growing

Reviews | 19 November 2025 | Pages: 2947 - 2969

Reliable DFT protocol for calculation of ^{195}Pt NMR chemical shifts

Full Articles | 19 November 2025 | Pages: 2970 - 2979

β -Alanyl- β -alanine N-acylation with nitrophenyl benzoates in a water—dioxane solvent

Full Articles | 19 November 2025 | Pages: 2980 - 2987

Crystallization of calcium carbonate under dynamic conditions in the presence of magnesium and organic acids

Full Articles | 19 November 2025 | Pages: 2988 - 2995

The PtBr_6^{2-} complex in methanol: thermal solvation and photochemistry in the presence of free bromide ions

Full Articles | 19 November 2025 | Pages: 2996 - 3006

Synthesis and evaluation of ecotoxicity and antimicrobial action of arabinogalactan-stabilized bismuth nanoparticles

Full Articles | 19 November 2025 | Pages: 3007 - 3020

Synthesis, structure characterization, and cytotoxic properties of sodium poly- α -D-galactopyranosyluronate complexes with silver

Reaction of 1-aryl-1-chlorocyclopropanes with alcohols in KOH—DMSO system as a stereoselective method for the synthesis of 1-alkoxy-2-arylcyclopropanes

Full Articles | 19 November 2025 | Pages: 3038 - 3050

Synthesis and biological activity of new phenothiazine-based heterodimers

Full Articles | 19 November 2025 | Pages: 3051 - 3060

Synthesis of functionalized aminomethylene bisorganophosphorus acids

Full Articles | 19 November 2025 | Pages: 3061 - 3075

Synthesis, structure, spectral characteristics, and fungicidal activity of thiazolo[2,3-*b*][1,3,4]thiadiazolium and [1,3,4]thiadiazolo[2,3-*b*]thiazinium trihalides

Full Articles | 19 November 2025 | Pages: 3076 - 3086

Synthesis and photophysical properties of 6-ethyl-6,12-dihydrodibenzo[*b,h*][1,5]naphthyridin-7(5*H*)-ones

Full Articles | 19 November 2025 | Pages: 3087 - 3094

1,3-Dipolar cycloaddition of pyridinium ylides to nitrostilbenes: synthesis of 1,2-diarylindolizines vs 3,4-diarylisoxazoline *N*-oxides

Full Articles | 19 November 2025 | Pages: 3095 - 3102

Conjugated systems based on azoles: synthesis, photophysical, and electrochemical properties

Full Articles | 19 November 2025 | Pages: 3103 - 3111

Reaction of 7-[(*E*)-2-(dimethylamino)vinyl]pyrazolo[1,5-*a*]pyrimidine-6-carbonitriles with hydrazine hydrate and preliminary studies of antimicrobial properties of reaction products

Synthesis of 3-(5-(alkoxy-*NNO*-azoxy)methyl-1,2,4-oxadiazoles

Full Articles | 19 November 2025 | Pages: 3122 - 3129

Diastereoselective synthesis of functionalized dispiro[imidazothiazolotriazine-pyrrolidine-oxindoles] based on the reaction of azomethine ylides with tetrasubstituted alkenes

Full Articles | 19 November 2025 | Pages: 3130 - 3137

New tetrahydrobenzo[*b*][1,6]naphthyridine derivatives: synthesis and biological activity

Full Articles | 19 November 2025 | Pages: 3138 - 3150

Associative transformations of chitosan aspartate in water-ethanol solutions

Full Articles | 19 November 2025 | Pages: 3151 - 3162

Conductive polypyrrole and polyvinyl alcohol composites prepared in aqueous ethanol solutions at low temperatures

Full Articles | 19 November 2025 | Pages: 3163 - 3172

Impact of soil micromycetes on the structural characteristics of polyethylene terephthalate

Full Articles | 19 November 2025 | Pages: 3173 - 3179

Photopolymerization of methyl methacrylate in the presence of 3-amino-7-dimethylamino-2-methylphenazine in various solvents

Full Articles | 19 November 2025 | Pages: 3180 - 3192

Thermal and pH sensitivity of a copolymer of *N*-isopropylacrylamide with maleic acid in aqueous salt solutions

Full Articles | 19 November 2025 | Pages: 3193 - 3200

Supramolecular systems based on triblock copolymers: temperature control of self-organization and micellar effect in the hydrolysis of phosphorus acid esters

Full Articles | 19 November 2025 | Pages: 3201 - 3210

Synthesis and antibacterial activity of hybrid structures based on 5-nitrofurfural acetylhydrazone and 3,5-dichlorosalicylanilides

Full Articles | 19 November 2025 | Pages: 3211 - 3217

Synthesis of *N*¹-carbazoylmethyl-substituted 5-halouracils

Brief Communications | 19 November 2025 | Pages: 3218 - 3221

New aza enyne derivatives based on (3-aminopropyl)triethoxysilane and 1-(3-aminopropyl)silatrane

Brief Communications | 19 November 2025 | Pages: 3222 - 3226
