32 articles in this issue

Heterogeneous catalysts for the hydrodeoxygenation of dihydroxybenzenes to phenol

Reviews | 25 April 2026 | Pages: 671 - 679

Black phosphorus in biomedicine: recent advances

Reviews | 25 April 2026 | Pages: 680 - 698

Multiple methyl viologen-mediated electrosynthesis of silver nanoparticles

Full Articles | 25 April 2026 | Pages: 699 - 710

Electrochemical properties of aluminum-doped vanadium oxide in magnesium-containing acetonitrile electrolytes

Full Articles | 25 April 2026 | Pages: 711 - 715

Synthesis of a magnetically active colloidal solution containing silver nanoparticles

Full Articles | 25 April 2026 | Pages: 716 - 722

Self-organization, physicochemical properties, and effects on hydrobionts of dilute water—ethanol—estrone systems

Full Articles | 25 April 2026 | Pages: 723 - 732

Absorption of molecular oxygen by the butyl glycidyl ether—hydroquinone—pyridine ternary system in a polar solvent

Full Articles | 25 April 2026 | Pages: 733 - 739

Magnesium-chromium-aluminum spinels based on organochromiumoxane magnesiumoxane alumoxanes

Full Articles | 25 April 2026 | Pages: 740 - 750

Antitumor Ru^{II} and Ir^{III} complexes with ligands containing a comenic acid moiety

Full Articles | 25 April 2026 | Pages: 751 - 759

Influence of non-covalent interactions and the nature of *N*-donor chelating ligands on the structure of cadmium 2,4- and 3,5-dinitrobenzoate complexes

Full Articles | 25 April 2026 | Pages: 760 - 780

Synthesis of new dibenzo[*b,f*]imidazo[1,2-*d*][1,4]oxazepine-6,7-dicarbonitriles

Full Articles | 25 April 2026 | Pages: 781 - 788

Stereoselective synthesis of 2-aryl-1-dialkylaminocyclopropanes by the reaction of *gem*-arylchlorocyclopropanes with lithium dialkylamides

Full Articles | 25 April 2026 | Pages: 789 - 801

Synthesis of 7-allyl- and 1-homoallyltetraoxabicyclo[2.2.1]heptanes from β -dicarbonyl compounds under heterogeneous conditions

Full Articles | 25 April 2026 | Pages: 802 - 808

Studies of the microwave-assisted reaction of carbocyclic ketones with aniline

Full Articles | 25 April 2026 | Pages: 809 - 815

En N,N' -Bis(2,6-diisopropylphenyl)acenaphthylene-1,2-diamine: a promising reducing agent for organic synthesis

Full Articles | 25 April 2026 | Pages: 816 - 824

Synthesis of new 2-aryl-3-hydroxyquinolines

Full Articles | 25 April 2026 | Pages: 825 - 832

Synthesis of (*E*)-3-oxo-3,4-dihydroquinoxaline-2-carbaldoximes from 3-methylquinoxalin-2-ones

Full Articles | 25 April 2026 | Pages: 833 - 840

Cascade cyclocondensation of 4-(cyclohex-1-en-1-yl)morpholine with (aryl) (chloro)pyruvates giving functionalized 4,5,6,7-tetrahydroindoles

Full Articles | 25 April 2026 | Pages: 841 - 854

Structure and photonics of aza-18-crown-6-containing 2-benzothiazole styryl dye and its complexes with metal cations

Full Articles | 25 April 2026 | Pages: 855 - 869

Aggregation properties and catalytic activity of alkylpiperidinium surfactants

Full Articles | 25 April 2026 | Pages: 870 - 880

Clustering of reverse micelles based on surfactants with different molecular structural morphology. Diffusion processes and electrical percolation

Full Articles | 25 April 2026 | Pages: 881 - 888

Esterase profile, antioxidant activity, and electrochemical properties of sterically hindered phenolic isatin derivatives

Full Articles | 25 April 2026 | Pages: 889 - 898

Aminobisthiophenols as ligands effectively stabilizing the low-valence state in tetrylene chemistry

Hydrogel polysaccharide compositions comprising diclofenac as promising materials for wound therapy

Full Articles | 25 April 2026 | Pages: 908 - 919

Synthesis and luminescence of polystyrene grafted with curcuminoid and boron difluoride benzoylacetate groups

Full Articles | 25 April 2026 | Pages: 920 - 927

Substituted o-hydroxybenzophenones as photoactive components for aromatic polyurethanes

Full Articles | 25 April 2026 | Pages: 928 - 938

Synthesis of 2,2-diallyl-substituted aziridine derivatives based on reductive diallylation of amino acids

Full Articles | 25 April 2026 | Pages: 939 - 944

Binary ligands of glutamate receptors in a series of cyclic indole derivatives

Full Articles | 25 April 2026 | Pages: 945 - 951

Comparative analysis of the oxidation of amino aromatic compounds with singlet oxygen

Brief Communications | 25 April 2026 | Pages: 952 - 954

Carbocationic cyclization of 1-phenyloct-3-yne mediated by 1,2-zwitterionic gallium complexes of methylenemalonates

Letters to the Editor | 25 April 2026 | Pages: 955 - 958

GaCl₃-mediated three-component carbocationic cyclization of methyl 1-cyano-2-phenylcyclopropane-1-carboxylate with 5-decyne

Letters to the Editor | 25 April 2026 | Pages: 959 - 961

XXVII International Scientific Conference “Chemistry and Chemical Engineering in XXI Century”

Announcement | 25 April 2026 | Pages: 962 - 962
