Volume 56, Issue 3
June 2025

ISSN 0013-788X
CODEN RJOEDH

9 articles in this issue

In a Laboratory Experiment with Growing *Miscanthus Sacchariflorus* Application of Biochar Reduces CO₂ Flux from the Soil

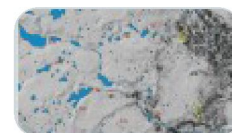

OriginalPaper | 27 September 2025 | Pages: 183 - 190

Selection of Model Sites of Ecotone Pine-Broadleaf Forests for Monitoring the Impact of Climate Change

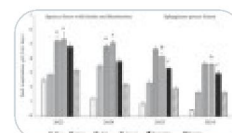

OriginalPaper | 27 September 2025 | Pages: 191 - 199

Carbon Storage by Siberian Larch in the Upper Treeline Ecotone in the Polar Urals

OriginalPaper | 27 September 2025 | Pages: 200 - 207

Soil Respiration of Middle Taiga Spruce Forests of the Mezensko-Vychegodskaya Plain (Komi Republic)

OriginalPaper | 27 September 2025 | Pages: 208 - 216

Estimates of Annual Carbon Dioxide Fluxes from the Soil of Spruce Forests of the Ural-Carbon Carbon Supersite based on Incomplete Time Series using Classical Regression Approaches and Machine Learning

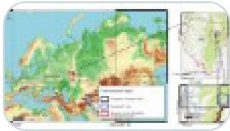

OriginalPaper | 27 September 2025 | Pages: 217 - 227

Dynamics of Carbon Dioxide Emissions from Chernozem Soils under a Forest Shelterbelt and Adjacent Arable Land in the Southern Forest-Steppe

Remote Sensing Assessment of Carbon Sequestration in Pine Forests (*Pinus Sylvestris* L.) on Fallow Lands of the Nasibash Site of the Eurasia Carbon Polygon

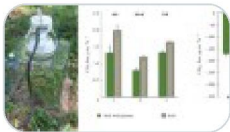

OriginalPaper | 27 September 2025 | Pages: 237 - 244

Sequestered Carbon in the Above-ground Phytomass of Forests Affected by Fires of Different Intensity

OriginalPaper | 27 September 2025 | Pages: 245 - 257

Measuring Methane and Carbon Dioxide Fluxes from Soil and Plants Under the Canopy of a Mixed Forest in the South of Western Siberia

SHORT MESSAGES | 27 September 2025 | Pages: 258 - 263
