10 articles in this issue

Recognition of Reflector Type Using Neural Network Based on TOFD Echoes

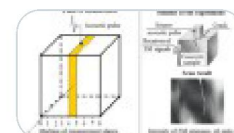

ACOUSTIC METHODS | 08 September 2025 | Pages: 603 - 609

Determination of Optimal Parameters of Guided Wave Excitation for Non-contact Ultrasonic Inspection of Anisotropic Composite Plates

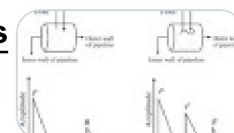

ACOUSTIC METHODS | 08 September 2025 | Pages: 610 - 619

Testing of the Technical Condition of Concrete Products and Structures by the Method of Acoustic–Electrical Transformations

ACOUSTIC METHODS | 08 September 2025 | Pages: 620 - 632

An Ultrasonic Echo Defect Recognition Method for Oil and Gas Pipelines Combining CNN-LSTM and Multi-Head Self-Attention Mechanism

ACOUSTIC METHODS | 08 September 2025 | Pages: 633 - 653

Ultrasonic-Based Impact Energy Level Prediction in Composite Materials Using Sequential Backward Selection and Adaptive Neuro-Fuzzy Inference System

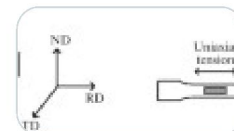

ACOUSTIC METHODS | 08 September 2025 | Pages: 654 - 669

Analysis of the Influence Factors on the Dynamic Response of a Lined Tunnel Embedded in an Inhomogeneous Half-Space Subjected to SH Waves

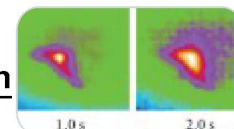

Relationship between Magnetic Parameters and the Recrystallization Degree During Annealing of Predeformed Nickel

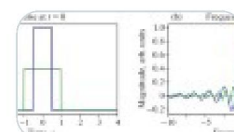

ELECTROMAGNETIC METHODS | 08 September 2025 | Pages: 687 - 696

Modeling and Experimental Study of Thermal Equivalents of Impact Damage in Composites during the Development of Reference Samples in Thermal Testing

THERMAL METHODS | 08 September 2025 | Pages: 697 - 703

Matched Filter-Based Post Processing Approach for Active Infrared Thermography for Nondestructive Testing and Evaluation of Carbon Fibre Reinforced Polymer Materials

THERMAL METHODS | 08 September 2025 | Pages: 704 - 714

The Gamma Level Gauging at High Temperature and Pressure Using a New Calibration Technique in the Petrochemical Industry

X-RAY METHODS | 08 September 2025 | Pages: 715 - 723
