

RUSSIAN JOURNAL OF PHYSICAL CHEMISTRY A

Focus on Chemistry

Pleiades
Publishing Group
Over **50** years
in the service of
science and education

Editor-in-Chief
Aslan Yu. Tsivadze

PLEIADES GROUP OF COMPANIES

Distributed by **SPRINGER NATURE**

Volume 99, Issue 1
January 2025

ISSN 1066-362X

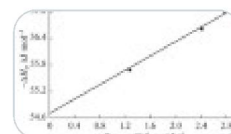

18 articles in this issue

Synchrotron Radiation in Solving Problems of Optimizing Properties of Aluminum Powders As Metallic Fuels and Raw Materials for Additive Technologies

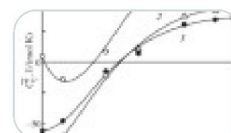

PROBLEMS, DEVELOPMENT, TRENDS, AND CURRENT TASKS OF PHYSICAL CHEMISTRY |
17 March 2025 | Pages: 1 - 18

Thermochemistry of the Dissolution of Tetra-4-carboxyphthalocyanine Hydroxyaluminum in Aqueous Solutions of KOH at 298.15 K

CHEMICAL THERMODYNAMICS AND THERMOCHEMISTRY | 17 March 2025 | Pages: 19 - 23

Heat Capacity Characteristics of the Solvation of Ammonium Ions in Mixed Solvent *N*-Methylpyrrolidone–Water at 298.15 K

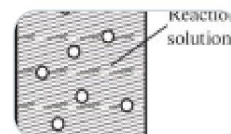

CHEMICAL THERMODYNAMICS AND THERMOCHEMISTRY | 17 March 2025 | Pages: 24 - 28

Vapor–Liquid Equilibrium Measurement of Methanol–Chloroform–Tetrahydrofuran and Methanol–Chloroform–Tetrahydrofuran–Dimethyl Sulfoxide Mixtures at 101.32 kPa

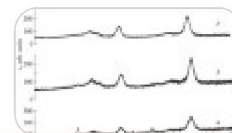

CHEMICAL THERMODYNAMICS AND THERMOCHEMISTRY | 17 March 2025 | Pages: 29 - 37

Dechlorination of Chloride–Sulfate Solutions Using Ozone

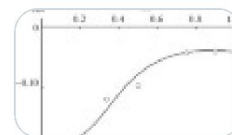

CHEMICAL KINETICS AND CATALYSIS | 17 March 2025 | Pages: 38 - 43

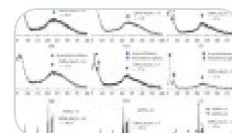

The Physicochemical Properties and Activity of Mn/ γ -Al₂O₃ Catalysts in Propane Conversion to Olefin Hydrocarbons

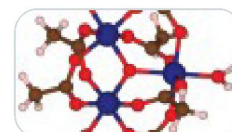

Concentration Dependences of the Heat Capacity of Ammonium Iodide Solutions in Mixed *N*-Methylpyrrolidone–Water Solvent at 298.15 K

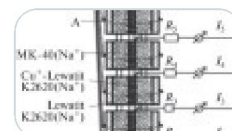

The Features of Crystallization of Aluminum Phosphate Gels with Various Ratios of Di-*n*-propylamine/ Al_2O_3 in the Micro-Mesoporous AlPO_4 -11 Molecular Sieve

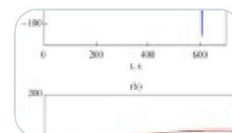

Towards Semiempirical Analysis of Exchange Interactions in Metalorganic Frameworks with Open *d*-Shell Ions

Stationary Redox Sorption of Oxygen Dissolved in Water on Granular Layers of Copper-Ion-Exchange Nanocomposites

Some Electrochemical Phenomena Accompanying the Destruction of Nanocluster Polyoxomolybdate Mo_{132}

Shielding and Electromagnetic Radiation-Absorbing Properties of Shugnite-Containing Materials

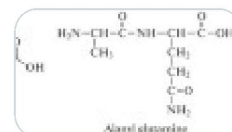

Critical Wetting Point in a Liquid Lead–Molten Alkali Metal Halogenide System

PHYSICAL CHEMISTRY OF DISPERSED SYSTEMS AND SURFACE PHENOMENA | 17 March 2025 |

Pages: 94 - 97

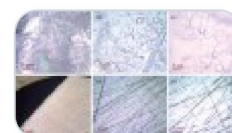

Introducing Catonization Agents in the Soft Ionization of Short-Chain Peptides: Laser Desorption and Electrospraying

PHYSICAL CHEMISTRY OF SEPARATION PROCESSES: CHROMATOGRAPHY | 17 March 2025 |

Pages: 98 - 104

Comparison of the Catalytic Properties of Pt and Co Cathodes for the Nitrite Reduction Reaction to Ammonia

ELECTROCHEMISTRY: GENERATING AND STORING ENERGY FROM RENEWABLE SOURCES |

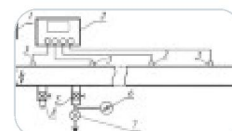

17 March 2025 | Pages: 105 - 110

Photocatalytic Oxidation of Oxalic Acid with Oxygen and Ozone in an Aqueous Solution

PHOTOCHEMISTRY, MAGNETOCHEMISTRY, MECHANOCHEMISTRY | 17 March 2025 | Pages: 111 - 119

The Determining Role of Heterogeneous Reactions of Atoms and Radicals in the Spread of a Flame

PHYSICAL CHEMISTRY OF COMBUSTION AND EXPLOSION PROCESSES | 17 March 2025 |

Pages: 120 - 129

Erratum to: Solid-Phase Equilibrium Diagram of the Bi₂Te₃-Rich Corner of MnTe–Bi₂Te₃–Te System and Thermodynamic Properties of the Intermediate Phases

Erratum | 17 March 2025 | Pages: 130 - 130
