Volume 72, Issue 6
December 2025

PLANT PHYSIOLOGY

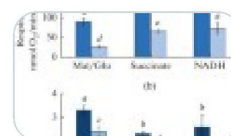

16 articles in this issue

Genic Male Sterility in Cotton: Post-Meiotic Microspore Abortion as a Decisive Factor

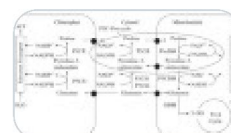

RESEARCH PAPERS | 03 October 2025 | Article: 196

Morphometric Investigation of Mitochondrial Ultrastructure in Etiolated Pea Seedlings

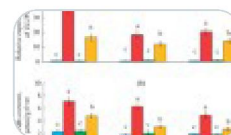

RESEARCH PAPERS | 03 October 2025 | Article: 195

Cross-Tolerance to Salinity and Osmotic Stress in *Chenopodium quinoa*

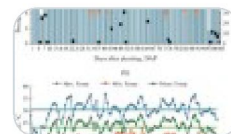

RESEARCH PAPERS | 03 October 2025 | Article: 194

Effects of Melatonin and Intense Light on Respiration and Mitochondrial Gene Expression in Leaves of Wild-Type and Brassinosteroid Mutants of *Arabidopsis thaliana*

RESEARCH PAPERS | 03 October 2025 | Article: 193

Responses of Melon to Water-Deficit Stress Applied during Fruit Development until Harvest under Semi-Arid Climatic Conditions

RESEARCH PAPERS | 03 October 2025 | Article: 192

Impact of Humic Acid on Leaf Carbohydrate Metabolism in Timely and Late Sown Varieties of Wheat (*Triticum aestivum* L.)

Redox Systems of the Plant Cell Vacuole Compared to Redox Systems of Other Subcellular Structures

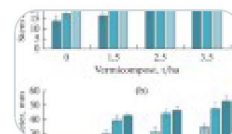

REVIEWS | 03 October 2025 | Article: 190

Chloroplast Members of the S2P Proteases Family, AraSP and AtS2P2, May Have a Functional Relationship in Promoting Plant Growth

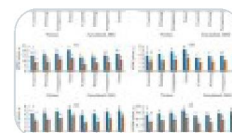

RESEARCH PAPERS | 03 October 2025 | Article: 189

Effects of Mycorrhizal Fungi, Plant Growth-Promoting Bacteria, and Vermicompost on Enhance Growth Characteristics of *Physalis alkekengi* L.

RESEARCH PAPERS | 03 October 2025 | Article: 188

Integrative Evaluation of Silicon Application Methods for Drought Tolerance in Wheat Using Morpho-Physiological and Biochemical Markers

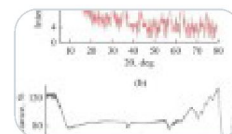

RESEARCH PAPERS | 03 October 2025 | Article: 187

Exogenous and Endogenous Signals: Critical Factors for Regulation of Flowering Time and Grain Yield in Rice

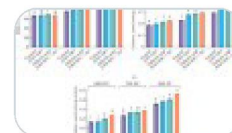

REVIEWS | 03 October 2025 | Article: 186

Foliar Application of Iron Oxide-Graphene Oxide Nanocomposite and Magnetic Iron Nanoparticles Mitigates the Growth and Physiological Attributes of *Calendula officinalis* L. Exposed to Salinity Stress

RESEARCH PAPERS | 03 October 2025 | Article: 185

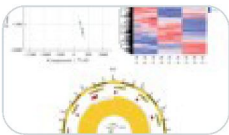

Foliar Application of Zinc Oxide Nanoparticles and Salicylic Acid Enhances Drought Tolerance in Tomato by Improving Antioxidant

Defence, Nutrient Uptake, and Anatomical Features

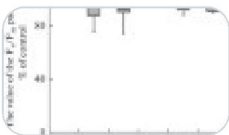

RESEARCH PAPERS | 03 October 2025 | Article: 184

Bioactive Components in *Vaccinium bracteatum* Thunb. Leaves: A Seasonal Transition Study from Spring to Summer for Health Food Development

RESEARCH PAPERS | 03 October 2025 | Article: 183

AtNDB2 Influences the Production of Reactive Oxygen Species and the State of Photosystem II under Cold Stress

RESEARCH PAPERS | 03 October 2025 | Article: 182

Phenolic Antioxidant Pool in Cross-Adaptation Induced by Salt Stress Contributing to Drought Tolerance in Olive

RESEARCH PAPERS | 03 October 2025 | Article: 181
