## Content

<b>D.G. Smirnov, V.A. Bezrukov, N.M. Kurmaeva</b> Use of habitat and foraging time by females of <i>Eptesicus nilssonii</i> (Chiroptera, Vespertilionidae)	1–10
<b>V.S. Gromov</b> Reduced reproductive success in voles <i>Microtus arvalis</i> and <i>Myodes glareolus</i> : Male presence negatively affects offspring survival and their growth rates	11–18
<b>N.Yu. Kirillova, A.A. Kirillov, A.B. Ruchin</b> First record of helminths of the European pine vole, <i>Microtus subterraneus</i> (Rodentia, Cricetidae) in Russia with overview on the rodent's range	19–24
<b>V.E. Kirilyuk</b> Rapidly increasing migratory activity of Mongolian gazelle ( <i>Procapra gutturosa</i> ) and the sightings of Goitered gazelle ( <i>Gazella subgutturosa</i> ) in Transbaikalia as an alarm	25–30
<b>N. Benamor, F. Bounaceur, S. Aulagnier</b> Dietary overlap of wild ungulate Cuvier's gazelle with livestock (sheep and goats) in Djebel Messaâd Forest, Algeria	31–43
<b>I.Yu. Rusin, I.A. Volodin, E.F. Sitnikova, M.N. Litvinov, R.S. Andronova, E.V. Volodina</b> Roaring dynamics in rutting male red deer <i>Cervus elaphus</i> from five Russian populations	44–58
<b>H. Tsunoda</b> Human disturbances increase vigilance levels in sika deer ( <i>Cervus nippon</i> ): A preliminary observation by camera-trapping	59–69
<b>I.Ya. Pavlinov, N.N. Spasskaya</b> Correlation structure of the cheek teeth enamel crown patterns in the genus <i>Equus</i> (Mammalia: Equidae): an analysis by geometric morphometrics with outline points	70–81
<b>N.N. Spasskaya, I.Ya. Pavlinov, F.S. Sharko, E.S. Boulygina, S.V. Tsygankova, A.V. Nedoluzhko, G.G. Boeskorov, E.N. Mashchenko</b> Morphometric and genetic analyses of diversity of the Lena horse ( <i>Equus lenensis</i> Russanov, 1968; Mammalia: Equidae)	82–95
<b>D.O. Gimranov</b> Structure of the upper teeth of the red fox ( <i>Vulpes vulpes</i> ) and Arctic fox ( <i>Vulpes lagopus</i> ) and analysis of dental variability in insular forms	96–110
