DEPARTMENTS

4 From the Editor

5 Letters

7 Science Agenda

To bolster the nation's high-tech labor pool, eliminate community college tuition. *By the Editors*

8 Forum

Requiring medical researchers to test males and females in every experiment is a bad idea. *By R. Douglas Fields*

9 Advances

Hints of supersymmetry. Cheaper, safer solar panels. Plastic finds a home in Arctic sea ice. Taste receptors fight bacteria. What birds understand about thought.

17 The Science of Health

Doctors can now readily cure hepatitis C, but the price of treatment is prohibitively high. *By Jessica Wapner*

19 TechnoFiles

Digital orchestras could replace live musicians in concert. *By David Pogue*

76 Recommended

A primer on the universe. Scientific answers to absurd hypothetical questions. Ways to gain self-control. Bringing back the recently dead. *By Clara Moskowitz*

77 Skeptic

How the survivor bias distorts reality. *By Michael Shermer*

78 Anti Gravity

For a tasty treat, try arthropods. *By Steve Mirsky*

79 50, 100 & 150 Years Ago

80 Graphic Science

Exactly how much do humans differ genetically from chimps and other primates? *By Kate Wong*
