REGULAR ARTICLES

- Integrating Fuzzy Logic and Statistics to Improve the Reliable Delimitation of Biogeographic Regions and Transition Zones
Jesús Olivero, Ana L. Márquez, and Raimundo Real 1
- From Trajectories to Averages: An Improved Description of the Heterogeneity of Substitution Rates Along Lineages
Stéphane Guindon 22
- Ratite Nonmonophyly: Independent Evidence from 40 Novel Loci
Jordan V. Smith, Edward L. Braun, and Rebecca T. Kimball 35
- The Evolutionary Root of Flowering Plants
Vadim V. Goremykin, Svetlana V. Nikiforova, Patrick J. Biggs, Bojian Zhong, Peter Delange, William Martin, Stefan Woetzel, Robin A. Atherton, Patricia A. McLenachan, and Peter J. Lockhart 50
- Novel Distances for Dollo Data
Michael Woodhams, Dorothy A. Steane, Rebecca C. Jones, Dean Nicolle, Vincent Moulton, and Barbara R. Holland 62
- Low-Parameter Phylogenetic Inference Under the General Markov Model
Barbara R. Holland, Peter D. Jarvis, and Jeremy G. Sumner 78
- Phylogenomic Insights into the Cambrian Explosion, the Colonization of Land and the Evolution of Flight in Arthropoda
Christopher W. Wheat and Niklas Wahlberg 93
- TreeFix: Statistically Informed Gene Tree Error Correction Using Species Trees
Yi-Chieh Wu, Matthew D. Rasmussen, Mukul S. Bansal, and Manolis Kellis 110
- Serine Codon-Usage Bias in Deep Phylogenomics: Pancrustacean Relationships as a Case Study
Omar Rota-Stabelli, Nicolas Lartillot, Hervé Philippe, and Davide Pisani 121
- Shape Variation in Outline Shapes
Brendan McCane 134
- Solution of the Generalized Noah's Ark Problem
Alain Billionnet 147

SOFTWARE FOR SYSTEMATICS AND EVOLUTION

- Key+: A New Single-Access Key Generation Web Service
Thomas Burguiere, Florian Causse, Visotheary Ung, and Régine Vignes-Lebbe 157
- Pruning Rogue Taxa Improves Phylogenetic Accuracy: An Efficient Algorithm and Webservice
Andre J. Aberer, Denis Krompass, and Alexandros Stamatakis 162

POINTS OF VIEW

- Phylogenetic Nomenclature, Hierarchical Information, and Testability
Kevin de Queiroz and Michael J. Donoghue 167
- The Information Content of Taxon Names: A Reply to de Queiroz and Donoghue
Norman I. Platnick 175

BOOK REVIEW

- Introduction to Phylogenetic Networks
Andrew H. Debevec and James B. Whitfield 177

POETRY

- The Tree of Life
David R. Maddison 179

Cover Illustration: A remnant *Eucalyptus leucoxylon* subsp. *leucoxylon* (South Australian blue gum) near Kangarilla in the Mount Lofty Ranges of South Australia. *Eucalyptus leucoxylon* is one of about 100 species in *E.* section *Adnataria*, members of which characterize the grassy box-ironbark woodlands of south-eastern Australia. Photo by Dean Nicolle.
