

TECHNICAL PHYSICS

С.-Петербург
ФТИ им. А.Ф. Иоффе

Physical Science of Materials

Lebedev V.T., Kulvelis Yu. V., Primachenko O. N., A. S. Odinov, Marinenko E. A., Shvidchenko A. V., A.I. Kuklin, O.I. Ivankov

Effect of nanodiamonds with different surface states on ion channel packing and proton conductivity of composite perfluorosulfone membranes

186

Baskakova K. I. , Sedelnikova O. V., Nishchakova A. D., Shlyakhova E. V., Fedorenko A. D., Paddubskaya A. G., Valynets N. I., Bulusheva L. G., Fedoseeva Y. V. , Okotrub A. V.

Brominated porous carbon material for terahertz radiation shielding

195

N.I. Alekseev, Broyko A.P., Klepikov I.V., Koliadin A.V., I.V. Oreshko, Solomnikova A.V.

Postgrowth regime optimization of temperature and pressure reduction in HPHT-diamond crystal growth method

204

Vervald A. M., Laptinskiy K. A., Khmeleva M. Yu., Dolenko T. A.

Stages of the synthesis of carbon dots from citric acid and ethylenediamine: IR spectroscopy

214

PodlozhnyukN. D., Vozniakovskii A. A., Kidalov S. V., Voznyakovskii A.P.

Strength properties of epoxy resin modified with few-layer graphene

221

Andryushcheko V. A., Betke I. A., Bogomolova A. I., Sorokin D. V.

Studying the dynamics of drying droplets using a graphene sensor

228

Boroznin S.V., Zaporotskova I. V., Boroznina N. P., Grigiriev A.D., Zaporotskov P.A., Verevkina K.Yu.

The effect of substitution atoms on the electronic properties of carbon nanotubes

238

Vozniakovskii A. A., Bogacheva E. A., PodlozhnyukN. D., Voznyakovskii A.P., Kidalov S. V.

Sorption properties of a magnetically sensitive composite based on few-layer graphene towards methylene blue

244

Vozniakovskii A. A., Voznyakovskii A.P., Kalashnikova E. I., Kidalov S. V., Eidelman E. D.

Thermophysical properties of aqueous nanofluids modified with carbon nanostructures

250

PosylkinaO. I., Latushkina S. D., Sechko I. A., Vozniakovskii A. A., Bogacheva E. A.

Ti-Cr-N coatings obtained by vacuum arc deposition as a basis for creating hybrid coatings

255

Vinogradov A. Ya. , Grudinkin S. A., Baranov M. A., Levitskii V. S. High-frequency magnetron sputtering and morphological properties of carbon nanowalls	260
Eidelman E. D., Vozniakovskii A. A., Voznyakovskii A.P., Kidalov S. V., Kalashnikova E. I. Thermal conductivity of nanofluids modified with hybrid nanomaterial of detonation diamond nanoparticles-carbon nanotubes composition	266
Gudyma T.S., Khabirov R.R., Krutskii Yu.L., Cherkasova N.Yu, Bannov A.G., Semenov A.O. Fabrication of B₄C/TiB₂ composite ceramics using boron carbide reduction	269
Sokolovsky D. N., Volkova Ya. Yu., Babushkin A. N. Study of the structure of crystalline fullerene C₇₀ at pressures up to 33 GPa	275
Vozniakovskii A. A., Voznyakovskii A.P., Titova S. I., Posylkina O.I., Kidalov S. V., Neverovskaya A. Yu., Auchynnikau Y.V. Obtaining protective coatings based on few-layer graphene particles by chemical crosslinking	281
Chernodubov D. A., Inyushkin A. V. Influence of phonon focusing effect on the diamond thermal conductivity	286
Kulvelis Yu. V., Lebedev V.T., Shvidchenko A. V., Tudupova B. B. , Kuular V. I., Yevlampieva N. P., Marinenko E. A., Odnokov A. S., Primachenko O. N., Gofman I. V. Modification of proton-conducting perfluorinated membranes with graphene oxide	290
Lukina I. N., Ekimov E. A., Drozdova E. I., Chernogorova O. P., Dormidontov N. A. Composite Materials with Nanostructured Carbon Inclusions for Sliding Electrical Contacts	302
Mjakin S. V., Guan Xingyu , Sychoy M. M., Boridko L. Sh., Sinelshchikova O. Yu. Comparative study of dielectric properties of polymer based composites containing barium titanate modified with different kinds of nanotubes	306
Gasilova E.R., Sitnikova A.O., Saprykina N.N., Vlasova E.N., Skorik Yu. A., Yakimansky A.V. Study of products of hydrothermal treatment of oligochitosan solutions	311
Khaskov M.A., Karaeva A.P., Mitberg E. B., Mordkovich V. Z. Influence of sulfur on yield and morphology of long carbon nanotubes	319
Kan V.E., Khudoley A.L., Irzhak D.V., Knyazev M.A., Teplova T.B. Study of the surface and subsurface layer of CVD- grown substrates after ultrafine polishing	326

- G.N. Panin , E.V. Emelin , O.O. Kapitanova , V.I. Korepanov , L.A. Varlamova , D.O. Klimchuk , S.V. Erokhin , K.V. Larionov , P.B. Sorokin
Memristor nanostructures based on the bigraphene/diamane phase transition
332
- Bekmurat F., Ryaguzov A. P., Nemkayeva R. R., Assembayeva A. R., Guseinov N. R., Yersaiyn R.Zh.
Effect of synthesis conditions on the structure and electronic properties of diamond-like carbon films with iridium nanoparticles
338
- Martyanov D. E., Dideikin A. T., Trofimuk A. D., Vul' A. Ya.
Stable sols of carboxylated diamond nanoparticles in dimethyl sulfoxide
348
- Murashko D.T., Kurilova U.E., Suetina I.A., Russu L.I., Kuksin A.V., Mezentseva M.V., Kitsyuk E.P., Markov A.G., Telyshev D.V., Gerasimenko A.Yu.
Carbon framework nanomaterials for stimulation of neural tissue cells
359
- Churilov G. N. , Isakova V. G. , Elesina V. I., Vnukova N. G. , Nikolaev N. S., Tomashevich E. V. , Glushenko G. A., Lopatin V. A.
Synthesis and research of carbon and palladium-based composites
371
- Khlebanovsky N.A., Moroz B.L., Kashkarov A.O., Ten K.A., Lukyanov Ya.L., Gerasimov E.Yu., Sharafutdinov M.R.
Detonation synthesis of metal nanoparticles and study of their morphology
379
- Ryaguzov A. P., Assembayeva A. R., Bekmurat F., Nemkayeva R. R., Kadir M. F.
Effect of synthesis conditions on the structure and optical properties of a-C:H films
386
- Chekan N.M, Voznyakovskii A.P., Skotnikova M.A., Vozniakovskii A. A., Akula I.P., Kuoma E.O., Auchynnikau Y.V., Ivanova G.V.
Cryogenic treatment of diamond-like vacuum coatings
395
