

TECHNICAL PHYSICS

С.-Петербург
ФТИ им. А.Ф. Иоффе

Technical Physics, 2025, volume 70, issue 3

Special issue based on the proceedings of International Conference "Nanocarbon and Diamond" (N&D 2024)

405

REVIEW

Snigireva I., Snigirev A.

Diamond Refractive Optics for modern X-ray sources

406

Theoretical and Mathematical Physics

Sozykin S. A.

Machine-learned interatomic potential of Li-C for nanomaterials

416

Badikova P.V., Zavyalov D. V., Sivashova E. S.

Effect of electric field on circular photovoltaic effect in topological superlattice

424

Zav'yalov D.V., Zharikov D.N., Konchenkov V.I., Shein D.V.

Modeling the thermal conductivity of black phosphorene using deep learning

431

Konobeeva N. N.

Simulation of the ultra-short pulses dynamics in a polymer composite with graphene nanoribbons and metal nanoparticles

441

Yashenkin A. G. , Utesov O. I., Koniakhin S. V.

Brillouin-Mandelstam scattering in weakly disordered nanoparticles

448

Atomic and Molecular Physics

Kondrina K. M., Urodskova E. K., Senchikhin I. N., Lyapin S. G., Grigoriev Y. V., Ekimov E. A.

Study of stability of heavily boron doped nanodiamond dispersions

453

Solid State

Divitskaya D. A., Volkova S. I., Ivanov A. V., Maksimova N. V., Syunyakova S. M., Avdeev V. V.

Hydrophobic coating based on tetraethoxysilane on graphite foil

462

Kostin A. A., Podoilov I.O., Kharlamova A.A., Ladvishchenko A.A., M. K. Eseev, Makarov D. N., Makarova K.A.

Spectroscopy of diamond plates modified by electron beams

A.V. Kaplin, E.A. Eremina, Ivanov A.V., Divitskaya D.A., Avdeev V.V., Astvatsaturov D.A., Dvoryak S.V., Khrykina O. N., Filippova T.V., korobov M.V.

Graphene oxides as sorbents for purification and separation of liquids: a physicochemical study

476

Solid State Electronics

S.G. Buga, N.V. Kornilov, M.S. Kuznetsov, N.V. Luparev, D.D. Prihodko, S.A. Tarelkin, T.E. Drozdova, S.I. Zholudev, S.A. Nosukhin, V.D. Blank

Electroluminescence of diamond NV-centers at temperatures 450 °C-680 °C

483

V. Golovakhin, A. A. Shishin, A. D. Lozben, A. R. Smagulova, T.S. Gudyma, E. A. Maksimovsky, P. B. Kurmashov, A. G. Bannov

Application of carbon nanofiber films for gas sensors NO₂

492

Lobaev M. A., Radishev D. B., Vikharev A. L., Gorbachev A. M., Bogdanov S. A., Isaev V. A., Kraev S. A., Okhapkin A. I., Arkhipova E. A., Yunin P.A., Vostokov N. V., Demidov E. V., Drozdov M. N.

CVD diamond structures with a p-n junction --- diodes and transistors

502

Trofimov A. A., Denisov I. A., Andrusov Yu. B., Grishechkin M. B., Tsaregorodtsev D. O., Kosyakova A. M., Kurepin S. A., Smirnov A. S., Dolmatov V. Yu.

Planarization of epilayers HgCdTe grown on CdZnTe substrates by liquid-phase epitaxy

511

Physics of Nanostructures

Davydov S. Yu., O. V. Posrednik

Adsorption of organic macromolecule on free-standing and epitaxial graphene having gap in electronic spectrum

521

Yu. V. Pakharukov, F. K. Shabiev, R. F. Safargaliev², E. V. Galunin¹

Hierarchy of self-organization and self-assembly processes exemplified by the growth of films at the hydrocarbon--graphene nanofluid" interface

526

Photonics

Nelson D.K., A. N. Starukhin, Eurov D.A., Kurdyukov D. A.

Effect of pH of the medium on fluorescence spectra of carbon dots based on Nile red dye

536

Kitsyuk E.P., Sysa A.V., Kuksin A.V., Vasilevskaya Yu.O., Moiseev S.G., Shaman Yu.P.

Compact infrared radiation sources based on carbon nanotube films

542

Physical Electronics

Lebedenko A.V., Klepikov I.V., Kulikov E.N., Deryabkin A.V., Fedorov Y.Y., Shepelev V.A., Altukhov A.A.

Surface Analysis of Polycrystalline CVD- Diamond after Static Thermochemical Treatment

558

Irzhevsky K.A., Klepikov I.V., Kolyadin A.V., Patrenin Y.V., Zhiltsov M.A., Shepelev V.A., Altukhov A.A.

Thermochemical polishing of single-crystal HPHT-diamond substrates: surface analysis

566

Salamatov Yu. A., Devyaterikov D. I., Makarova M. V., Matyukhov V. V., Ponosov Yu. S., Proglyado V. V., Tolmacheva E. A., Kravtsov E. A.

Modification of the structural properties of niobium thin films after hydrogenation

575

Gushchin A.V., Dinkova E.N., Rayanova K.A., Salitrinnik L.I., Trukhanova M.I., Komarov I.A.

Study of PET substrate wetting by multicomponent graphene oxide suspensions

581

Physics for Sciences of Life

Shavelkina M.B., Antonova I.V., Nebogatikova N.A., Ivanov A.I., Kiseleva S.V., Chernova N.I., Shatalova T.B.

Investigation of the influence of microalgae on the sensory properties of carbon materials

591

Ichkitidze L. P. , Popovich K. D., Suchkova V. V. , Ryabkin D. I. , Hosseini S. S., Petukhov V. A. , Telyshev D. V. , Selischev S. V. , Gerasimenko A. Yu.

Flexible Electrically Conductive Films Based on Biocompatible Composite Material

601
