

TECHNICAL PHYSICS

С.-Петербург
ФТИ им. А.Ф. Иоффе

Theoretical and Mathematical Physics

Bagrov A. R., Bashkirov E. K.

Dynamics of entanglement of an isolated atom and two Jaynes-Cummings atoms

801

M.V. Davidovich

Localized plasmons in nanoparticles: calculation methods

813

Rezvanova A.E., Kudryashov B.S., Ponomarev A.N.

Application of machine learning methods to predict the optical absorption coefficient of composite ceramics based on hydroxyapatite

826

Mazhirina. Yu. A., Melnikov L.A.

Quantum fluctuations in mode-locked fiber lasers

834

Physical Science of Materials

Murashko D.T., Kurilova U.E., Popovich K.D., Kuksin A.V., Gerasimenko A.Yu.

Study of mechanical characteristics of layered structures based on carbon nanomaterials for creation of bioelectronic components

838

Popovich K. D., Suchkova V. V., Ryabkin D. I. , Pugovkin A. A. , Gerasimenko E. A. , Telyshev D. V. , Selishchev S. V. , Gerasimenko A. Yu.

Nanocomposite tensor resistive elements based on carbon nanomaterials for wearable electronics

847

Bobenko N.G., Egorushkin V. E., Ponomarev A.N.

Correlation of X-ray, TEM, and Raman Methods in the Study of Orientational Disorder in Multi-Walled Carbon Nanotubes

857

Kurilova U. E., Chernikov A. S., Kochuev D. A., Chkalov R. V. , Dzus M. A., Kharkova A. V., Kazak A. V., Suetina I. A. , Russu L. I., Mezentseva M. V. , Khorkov K. S.

Study of characteristics of magnetic nanoparticles produced by laser ablation

863

Gerasimenko A.Yu., Kuksin A.V., Murashko D.T., Popovich K.D. , Kurilova U.E. , Savelyev M.S., Suetina I.A., Russu L.I., Mezentseva M.V. , Shaman Y.P., Kitsyuk E.P., Nesterenko I.V. , Glukhova O.E., Selishchev S.V.

Formation of electrically conductive surfaces based on carbon nanomaterials for neurostimulation devices

871

Physics of Nanostructures

Petrinin A.A., Glukhova O.E.

Chemiresistive response of SnO₂ thin films to dissociative adsorption of alcohols and ketones

890

Barkov P. V., Slepchenkov M. M., Glukhova O. E.

Influence of metric parameters on the electrical conductivity properties of thin films of perforated graphene functionalized with carboxyl groups

897

Kabanov V. F., Mikhailov A. I., Gavrikov M. V.

Current transfer in the tunneling microscope probe-tunnel gap-layer of A³B⁵ and A²B⁶ semiconductors quantum dots system under illumination

903

Photonics

Savelyev M. S., Vasilevsky P. N., Dudin A. A., Tolbin A. Yu., Pavlov A.A., Gerasimenko A. Yu.

Optical limiting properties of composites of iron, nickel and cobalt phthalocyanine complexes with single-wall carbon nanotubes and assessment of their efficiency by latest correlation methods

909

O.M. Parshkov

Polarization effects electromagnetically induced transparency in the -scheme of degenerated levels

916

Khorin P.A., Dzyuba A.P., Khonina S.N.

Design and simulation of a multichannel DOE for aberration analysis with increased diffraction efficiency

925

Maksimova L.A., Lyakin D.V., Mysina N.Yu., Ryabukho V.P.

Method for investigating the spatial correlation properties of a stochastic wave field

931

Mushchina A. S., Isaev I. V., Sarmanova O. E., Burikov S. A., Dolenko T. A., Dolenko S. A.

Comparing Approaches to Improving Representativity of Spectroscopic Data using Variational Autoencoders

939

Акустика, акустоэлектроника

Machikhin A. S., Marchenkov A. Yu., Chernov D. V., Balandin T. D., Sharikova M. O., Bykov A. A., Khokhlov D. D., Eliovich I. A., Pisarevsky Yu. V., Pankina A. A.

Acoustic Emission Damage Accumulation Monitoring during Mechanical and Thermal Strain of Paratellurite Single-crystal

949

Radiophysics

Saburova V.S., Krutiev S.V.
Multi-layer bandpass filter

959

Bukin S. P., Krutiev S. V.
Bandpass filters based on SIW and ESIW-technologies

965

A.M. Lerer, I.N. Ivanova, V.I. Kravchenko
An iterative method for solving the problem of diffraction on a nonlinear dielectric lattice in strong electromagnetic fields

972

Physical Electronics

Krachkovskaya T.M., Glukhova O.E. , Kolosov D. A.
Manufacturing technology and emission properties of modified metal-porous cathodes of M-type

980

Kolesnichenko P.A., Glukhova O.E.
Development of an approach to parameterization of the SCC DFTB method for transition metals using copper oxide as an example

990

Physics for Sciences of Life

Ryabkin D.I. , Stavtsev D. D. , Suchkova V.V. , Morozova E.A. , Pyavchenko G.A. , Konovalov A. N., Selischev S. V., Gerasimenko A. Yu.
Approbation of the technology of laser soft tissue reconstruction using laser speckle contrast imaging in vivo

999
