

TECHNICAL PHYSICS

С.-Петербург
ФТИ им. А.Ф. Иоффе

XXIX Symposium on Nanophysics and Nanoelectronics, Nizhny
Novgorod, March 10-14, 2025

Theoretical and Mathematical Physics

Vishnyakov E. A.

Prospects for electron acceleration with not-so-high-power lasers

1535

Plasma

Perekalov A. A., Guseva V. E., Nechay A. N., Chkhalo N. I., Veprev P. A., Artyukhov A. I.

Experimental stand for studying the characteristics of powerful laser-plasma sources of EUV radiation

1545

Guseva V. E., Nechay A. N., Perekalov A. A., Chkhalo N. I.

Radial distribution of emitting centers in Ar laser plasma

1553

Solid State

Khan F.V., Filippenko L.V., Ermakov A.B., Kinev N.V., Koshelets V.P.

Superconducting subterahertz range oscillators: history and new developments

1561

F.V. Khan, L.V. Filippenko, M.Yu. Fominsky, A.B. Ermakov, A.P. Orlov, V.P. Koshelets

Spectrum of oscillation of the array of Josephson junctions in the coplanar line

1569

Sedykh K. O., Suleimen Y., Svyatodukh S. S., Zarutskiy S. Yu., Podlesnyy A. S., Golikov A. D., Florya I. N.,
Kovalyuk V. V., Lakhmanskij K. E., Goltsman G. N.

Characteristics of a superconducting single-photon detector shielded by ITO under external electric field conditions

1577

Guryev V. V., Krylov V.E., Irodova A.V., Kondratiev O.A., Shavkin S.V.

Upper Buffer Layer Influence on the Current-Carrying Capacity of Coated Conductors

1585

Gurovich B. A., Golubev G. Yu., Prikhodko K. E., Kutuzov L. V., Komarov D. A., Malieva E. M., Goncharov B. V.,
Goncharova D. A., Stolyarov V. L.

Switching of superconducting nanowires from NbN to the normal state and back at high frequency in two-layer structures due to local heating

1593

E.R. Khan, N.Yu. Rudenko, V. I. Chichkov, S.V. Shitov

Superconducting RF Passing Power Detector (SPPD)

1600

S.V. Shitov , N.Yu. Rudenko , V.I. Chichkov

Prospects of Sensors Using RFTES Technology for Superconducting Quantum Circuits

1609

Rudenko N. Yu., Chichkov V. I., Shitov S. V.

Experimental study of the superconducting RFTES detector with bridge inductively coupled to a resonator

1617

Physical Science of Materials

Ivanov V. V., Efimov A. A., Borisov V. I., Urazov M. N., Korniushev D. V., Musaev A. G., Voroshilova V. A., Dolgov V. A., Simonenko N. P., Ivanov M. S.

Formation of microstructures by non-contact aerosol printing with nanoparticles

1626

Solid State Electronics

Kruglov A. V., Serov D. A. , A.I. Belov, Koryazhkina M. N., I.N. Antonov, S.Yu. Zubkov, Kriukov R.N., D.A. Antonov, D.O. Filatov, Khabibulova V. A., Mikhaylov A. N., Gorshkov O.N.

Influence of oxygen vacancy concentration on the resistive switching parameters of $\text{ZrO}_2(\text{Y})$ -based memristor structures

1634

Volkhin D. I. , Novikov I. L., Vostretsov A.G.

Experimental study of passive electronic components in cryogenic electronics

1645

Physics of Nanostructures

Komonov A. I., Mantsurov N. D., Voloshin B. V., Seleznev V. A., Kichay V. N., Yakovkina L. V., Mutilin S. V.

The method of crystalline nanostructures formation from amorphous vanadium dioxide films

1656

Salamatov Yu. A., Kravtsov E. A., Korkh Yu. V., Ponomarev Yu. S., Uimin M. A., Devyaterikov D. I., Makarova M. V., Matyukhov V. V., Kuznetsova T. V.

Synthesis and morphological properties of graphene on metal and dielectric nanoparticles

1665

Fedichkin L. E., Berdashkevich A. E., Sayapin Z. I., Tarpanov D. A., Shaposhnikov D. Yu.

Relaxation of double quantum dot qutrit

1679

G. S. Khismatullin, Kolotinskiy N. V., Khrenov M.M., Ionin A. S., M.Y. Fominsky, L.V. Filippenko, I. I. Soloviev, Klenov N. V.

SQIF magnetometer for navigation systems: experimental and theoretical study of base cells

1685

Yusupov R. A., Gunbina A. A., Markina M. A., Tarasov M. A., Fominskiy M. Yu, Chekushkin A. M., Edelman V. S.

Fabrication of tunnel superconducting structures by selective chemical etching of aluminum

1693

Markina M. A., Tarasov M. A., Yusupov R. A., Khan F. V., Fominskiy M. Yu., Kozulin R.K., Chekushkin A. M.
Thermometers based on NIS junctions of temperature range 1.5-9.0 K

1700

Durov K. V., Akhsakhalyan A. D., Malyshev I. V., Polkovnikov V. N., Chkhalo N. I.
Multilayer NiMo/C structures fabricated by reactive magnetron sputtering

1708

Shaposhnikov R. A., Garakhin S. A., Polkovnikov V. N., Chkhalo N. I.
Structural and reflective characteristics of Cr/C multilayer mirrors synthesized by reactive sputtering method

1716

Electrophysics

A. E. Pestov, M. S. Mikhailenko, A. K. Chernyshev, N. I. Chkhalo, I. G. Zabrodin, A. I. Nikolaev, I. A. Kas'kov, E. S. Antyushin
Ion beam machine for correction and aspherization of the surface shape of optical elements UIP-300

1724

Experimental Instruments and Technique

Soldatenkova M.D., Lomakin A.I., Svyatodukh S.S., Titova N.A., Baeva E.M., Kolbatova A.I., Goltsman G.N.
Large area multi-element single-photon detector

1734
