СОДЕРЖАНИЕ

Why should we care about the top quark Yukawa coupling?	Bezrukov F., Shaposhnikov M.	389
Is the Standard Model saved asymptotically by conformal symmetry?	Gorsky A., Mironov A., Morozov A., Tomaras T. N.	399
Taming the off-shell Higgs boson	Azatov A., Grojean C., Paul A., Salvioni E.	410
Double Higgs production at LHC, see-saw type-II and Georgi–Machacek model	Godunov S. I., Vysotsky M. I., Zhemchugov E. V.	426
The electroweak axion, dark energy, inflation and baryonic matter	McLerran L.	433
Exploring variations in the gauge sector of a six-dimensional flavour model	Frère J.-M., Libanov M., Mollet S., Troitsky S.	438
Resurgence, operator product expansion, and remarks on renormalons in supersymmetric Yang–Mills theory	Shifman M.	444
Flux tube spectra from approximate integrability at low energies	Dubovsky S., Flauger R., Gorbenko V.	458
A novel approach to the study of conformality in the $SU(3)$ theory with multiple flavors	Brower R., Hasenfratz A., Rebbi C., Weinberg E., Witzel O.	485
On a chiral analog of the Einstein–de Haas effect	Zakharov V. I.	491
Holographic thermalization in a quark confining background	Ageev D. S., Aref’eva I. Ya.	499
Thermal transport in a noncommutative hydrodynamics	Geracie M., Son D. T.	508
Holography beyond conformal invariance and AdS isometry?	Barvinsky A. O.	514
Tunnelling with wormhole creation	Ansoldi S., Tanaka T.	526

Exploring the spectrum of regularized bosonic string theory	Ambjørn J., Makeenko Y.	536
Long string dynamics in pure gravity on AdS_3	Kim J., Porrati M.	543
Unfolded equations for current interactions of $4d$ massless fields as a free system in mixed dimensions	Gelfond O. A., Vasiliev M. A.	550
Completing Lorentz violating massive gravity at high energies	Blas D., Sibiryakov S.	578
BICEP2 in corpuscular description of inflation	Dvali G., Gomez C.	595
Scalaron production in contracting astrophysical objects	Gorbunov D., Tokareva A.	599
Full sky harmonic analysis hints at large ultra-high energy cosmic ray deflections	Tinyakov P. G., Urban F. R.	605
Neutrinos in IceCube from active galactic nuclei	Kalashov O., Semikoz D., Tkachev I.	614
Wall-crossing invariants: from quantum mechanics to knots	Galakhov D., Mironov A., Morozov A.	623
